## RADIO ONE, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

## (a) Organization

Radio One, Inc. (a Delaware corporation referred to as "Radio One") and its subsidiaries (collectively, the "Company") is an urban-oriented, multi-media company that primarily targets African-American and urban consumers. Our core business is our radio broadcasting franchise that is the largest radio broadcasting operation that primarily targets African-American and urban listeners. We currently own and/or operate 54 broadcast stations located in 16 urban markets in the United States. While our primary source of revenue is the sale of local and national advertising for broadcast on our radio stations, our strategy is to operate the premier multi-media entertainment and information content provider targeting African-American and urban consumers. Thus, we have diversified our revenue streams by making acquisitions and investments in other complementary media properties. Our other media interests include our approximately $99.6 \%$ ownership interest in TV One, LLC ("TV One") an African-American targeted cable television network (See Note 2 - Acquisitions and Dispositions); our $80.0 \%$ ownership interest in Reach Media, Inc. ("Reach Media"), which operates the Tom Joyner Morning Show and our other syndicated programming assets, including the Rickey Smiley Morning Show, the Yolanda Adams Morning Show, the Russ Parr Morning Show and the DL Hughley Show; and our ownership of Interactive One, LLC ("Interactive One"), our wholly owned online platform serving the African-American community through social content, news, information, and entertainment websites, including Global Grind (as defined in Note 2 - Acquisitions and Dispositions), News One, TheUrbanDaily and HelloBeautiful, and online social networking websites, including BlackPlanet and MiGente. In May 2014, the Company agreed to invest a minimum of $\$ 5$ million up to a maximum of $\$ 40$ million in MGM's development of a world-class casino property, MGM National Harbor, located in Prince George's County, Maryland. Upon completion of the project, currently anticipated to be in the second half of 2016, this investment will further diversify our platform in the entertainment industry while still focusing on our core demographic. On April 10, 2015, the Company made its minimum $\$ 5$ million investment associated with MGM National Harbor and accounted for this investment on a cost basis.

As part of our consolidated financial statements, consistent with our financial reporting structure and how the Company currently manages its businesses, we have provided selected financial information on the Company's four reportable segments: (i) radio broadcasting; (ii) Reach Media; (iii) internet; and (iv) cable television (See Note 7 - Segment Information).

## (b) Interim Financial Statements

The interim consolidated financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In management's opinion, the interim financial data presented herein include all adjustments (which include only normal recurring adjustments) necessary for a fair presentation. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been condensed or omitted pursuant to such rules and regulations.

Results for interim periods are not necessarily indicative of results to be expected for the full year. This Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the Company's 2014 Annual Report on Form 10-K.

## (c) Financial Instruments

Financial instruments as of June 30, 2015, and December 31, 2014, consisted of cash and cash equivalents, investments, trade accounts receivable, longterm debt and redeemable noncontrolling interests. The carrying amounts approximated fair value for each of these financial instruments as of June 30, 2015, and December 31, 2014, except for the Company's outstanding senior subordinated and secured notes. The $9.25 \%$ Senior Subordinated Notes which are due in February 2020 (the "2020 Notes") had a carrying value of approximately $\$ 335.0$ million and fair value of approximately $\$ 306.5$ million and $\$ 294.8$ million as of June 30, 2015, and December 31, 2014, respectively. The fair values of the 2020 Notes, classified as Level 2 instruments, were determined based on the trading values of these instruments in an inactive market as of the reporting date. The Company's $10 \%$ Senior Secured TV One Notes that were due in March 2016 and paid off in April 2015, were classified as Level 3 instruments at December 31, 2014, since they were not market traded financial instruments. In April 2015, we entered into a series of transactions to refinance certain portions of our debt and to finance our acquisition of Comcast's membership interest in TV One. Our new $7.375 \%$ Senior Secured Notes that are due in March 2022 (the "2022 Notes") had a carrying value of approximately $\$ 350.0$ million and fair value of approximately $\$ 346.5$ million as of June 30, 2015. The fair values of the 2022 Notes, classified as Level 2 instruments, were determined based on the trading values of these instruments in an inactive market as of the reporting date. Our new $\$ 350.0$ million senior secured credit facility (the " 2015 Credit Facility) had a carrying value of approximately $\$ 350.0$ million and fair value of approximately $\$ 356.1$ million as of June 30, 2015 . Our new senior unsecured promissory note in the aggregate principal amount of approximately $\$ 11.9$ million (the "Comcast Note") is classified as Level 3 since it is not a market traded financial instrument. See Note 4 - Long-Term Debt for further description of our new credit facilities and outstanding notes.

## (d) Revenue Recognition

Within our radio broadcasting and Reach Media segments, the Company recognizes revenue for broadcast advertising when a commercial is broadcast and is reported, net of agency and outside sales representative commissions, in accordance with Accounting Standards Codification ("ASC") 605, "Revenue Recognition." Agency and outside sales representative commissions are calculated based on a stated percentage applied to gross billing. Generally, clients remit the gross billing amount to the agency or outside sales representative, and the agency or outside sales representative remits the gross billing, less their commission, to the Company. For our radio broadcasting segment, agency and outside sales representative commissions were approximately $\$ 7.1$ million and $\$ 8.0$ million for the three months ended June 30,2015 and 2014, respectively. Agency and outside sales representative commissions were approximately $\$ 13.6$ million and $\$ 15.3$ million for the six months ended June 30, 2015 and 2014, respectively.

Interactive One generates the majority of the Company's internet revenue, and derives such revenue principally from advertising services, including advertising aimed at diversity recruiting, on non-radio station branded but Company owned websites. Advertising services include the sale of banner and sponsorship advertisements. Advertising revenue is recognized either as impressions (the number of times advertisements appear in viewed pages) are delivered, when "click through" purchases are made or leads are generated, or ratably over the contract period, where applicable. In addition, Interactive One derives revenue from its studio operations, in which it provides third-party clients with publishing services including digital platforms and related expertise. In the case of the studio operations, revenue is recognized primarily based on fixed contractual monthly fees or as a share of the third party's reported revenue.

TV One derives advertising revenue from the sale of television air time to advertisers and recognizes revenue when the advertisements are run. TV One also derives revenue from affiliate fees under the terms of various affiliation agreements based on a per subscriber fee multiplied by the most recent subscriber counts reported by the applicable affiliate. For our cable television segment, agency and outside sales representative commissions were $\$ 3.6$ million and $\$ 3.2$ million for the three months ended June 30,2015 and 2014, respectively. Agency and outside sales representative commissions were approximately $\$ 7.2$ million and $\$ 6.6$ million for the six months ended June 30, 2015 and 2014, respectively.

## (e) Launch Support

TV One has entered into certain affiliate agreements requiring various payments by TV One for launch support. Launch support assets are used to initiate carriage under new affiliation agreements and are amortized over the term of the respective contracts. Launch support amortization is recorded as a reduction to revenue to the extent that revenue is recognized from the affiliate, and any excess amortization is recorded as launch support amortization expense. The initial weighted-average amortization period for launch support assets is approximately 10.9 years at June 30, 2015, and December 31, 2014. The remaining weighted-average amortization period for launch support assets is 0.8 years and 0.9 years as of June 30, 2015, and December 31, 2014, respectively. For the three and six months ended June 30,2015 , launch support asset amortization of $\$ 577,000$ and approximately $\$ 1.5$ million, respectively, was recorded as a reduction to revenue. For the three and six months ended June 30,2014 , launch support asset amortization of approximately $\$ 2.5$ million and $\$ 5.0$ million, respectively, was recorded as a reduction to revenue.

## (f) Barter Transactions

In certain instances, the Company provides advertising time in exchange for programming content and certain services. The Company accounts for these exchanges in accordance with ASC 605, "Revenue Recognition." The terms of these exchanges generally permit the Company to preempt such time in favor of advertisers who purchase time in exchange for cash. The Company includes the value of such exchanges in both net revenue and station operating expenses. The valuation of barter time is based upon the fair value of the network advertising time provided for the programming content and services received. For the three months ended June 30,2015 and 2014, barter transaction revenues were $\$ 577,000$ and $\$ 868,000$, respectively. For the six months ended June 30, 2015 and 2014, barter transaction revenues were approximately $\$ 1.1$ million and $\$ 1.7$ million, respectively. Additionally, barter transaction costs were reflected in programming and technical expenses and selling, general and administrative expenses of $\$ 520,000$ and $\$ 827,000$ and $\$ 57,000$ and $\$ 41,000$, for the three months ended June 30,2015 and 2014, respectively. For the six months ended June 30,2015 and 2014 , barter transaction costs were reflected in programming and technical expenses and selling, general and administrative expenses of approximately $\$ 1.1$ million and $\$ 1.6$ million and $\$ 95,000$ and $\$ 81,000$, respectively.

## (g) Earnings Per Share

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock (Classes A, B, C and D) outstanding during the period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. The Company's potentially dilutive securities include stock options and unvested restricted stock. Diluted earnings per share considers the impact of potentially dilutive securities except in periods in which there is a net loss, as the inclusion of the potentially dilutive common shares would have an anti-dilutive effect.

The following table sets forth the calculation of basic and diluted earnings per share from continuing operations (in thousands, except share and per share data):

|  | Three Months Ended <br> June 30, | Six Months Ended <br> June 30, | (Unaudited) <br> (In Thousands) |
| :--- | :--- | :--- | :--- | :--- |

All stock options and restricted stock awards were excluded from the diluted calculation for the three and six months ended June 30 , 2015 and 2014 , respectively, as their inclusion would have been anti-dilutive. The following table summarizes the potential common shares excluded from the diluted calculation.

|  | Three Months Ended June 30, 2015 | Six Months Ended June 30, 2015 | Three Months Ended June 30, 2014 | Six Months Ended June 30, 2014 |

## (h) Fair Value Measurements

We report our financial and non-financial assets and liabilities measured at fair value on a recurring and non-recurring basis under the provisions of ASC 820, "Fair Value Measurements and Disclosures." ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets and liabilities that can be accessed at measurement date.
Level 2: Observable inputs other than those included in Level 1 (i.e., quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets).

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.
As of June 30, 2015, and December 31, 2014, respectively, the fair values of our financial assets and liabilities are categorized as follows:

|  | Total |  | Level 1 |  | Level 2 |  | Level 3 |  |

(a) These balances are measured based on the estimated enterprise fair value of TV One as determined by a combination of a discounted cash flow analysis and the value used in connection with the Comcast Buyout (as defined in Note 2 -Acquisitions and Dispositions). Significant inputs to the discounted cash flow analysis include forecasted operating results, discount rate and a terminal value. A third-party valuation firm assisted the Company in estimating TV One's fair value using the discounted cash flow analysis.
(b) Pursuant to an employment agreement (the "Employment Agreement") executed in April 2008, the Chief Executive Officer ("CEO") is eligible to receive an award (the "Employment Agreement Award") amount equal to $8 \%$ of any proceeds from distributions or other liquidity events in excess of the return of the Company's aggregate investment in TV One. The Company reviews the factors underlying this award at the end of each quarter including the valuation of TV One (based on the estimated enterprise fair value of TV One as determined by a combination of a discounted cash flow analysis and the value used in connection with the Comcast Buyout, as defined in Note 2 -Acquisitions and Dispositions), and an assessment of the probability that the Employment Agreement will be renewed and contain the award. There are probability factors included in the calculation of the award related to the likelihood that the award will be realized. The Company's obligation to pay the award will be triggered only after the Company's recovery of the aggregate amount of its capital contribution in TV One and only upon actual receipt of distributions of cash or marketable securities or proceeds from a liquidity event with respect to the Company's membership interest in TV One. The CEO was fully vested in the award upon execution of the Employment Agreement, and the award lapses if the CEO voluntarily leaves the Company or is terminated for cause. A third-party valuation firm assisted the Company in estimating TV One's fair value using the discounted cash flow analysis. Significant inputs to the discounted cash flow analysis include forecasted operating results, discount rate and a terminal value. As noted in our current report on Form 8-K filed October 6, 2014, the Compensation Committee of the Board of Directors of the Company has approved terms for a new employment agreement with the CEO, including a renewal of the Employment Agreement Award upon similar terms as in the prior Employment Agreement. While a new employment agreement has not been executed as of the date of this report, the CEO is being compensated according to the new terms approved by the Compensation Committee.
(c) The redeemable noncontrolling interest in Reach Media is measured at fair value using a discounted cash flow methodology. A third-party valuation firm assisted the Company in estimating the fair value. Significant inputs to the discounted cash flow analysis include forecasted operating results, discount rate and a terminal value.
(d) Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, fair values are estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows.

The following table presents the changes in Level 3 liabilities measured at fair value on a recurring basis for the six months ended June 30 , 2015 and 2014:

|  | Incentive Award Plan |  | Employment Agreement Award |  | Redeemable Noncontrolling Interests |  |

| The amount of total losses for the period included in earnings attributable to the change in unrealized losses relating to assets and liabilities still held at the reporting date | \$ | (188) | \$ | $(1,503)$ | \$ | - |

Losses included in earnings were recorded in the consolidated statements of operations as corporate selling, general and administrative expenses for the three and six months ended June 30, 2015 and 2014.

For Level 3 assets and liabilities measured at fair value on a recurring basis, the significant unobservable inputs used in the fair value measurements were as follows:

| Level 3 liabilities | Valuation Technique $\begin{gathered}\text { Significant } \\ \text { Unobservable Inputs }\end{gathered}$ |  | $\begin{gathered} \text { As of June 30, } \\ 2015 \end{gathered}$ | As of December 31, 2014 | As of June $30,2014$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Significant Unobservable Input Value |  |  |
| Incentive award plan | Discounted Cash Flow | Discount Rate | 10.4\% | 10.4\% | 10.6\% |
| Incentive award plan |  | Long-term Growth |  |  |  |
|  | Discounted Cash Flow | Rate | 3.0\% | 3.0\% | 3.0\% |
| Employment agreement award | Discounted Cash Flow | Discount Rate | 10.4\% | 10.4\% | 10.6\% |
| Employment agreement award |  | Long-term Growth |  |  |  |
|  | Discounted Cash Flow | Rate | 3.0\% | 3.0\% | 3.0\% |
| Redeemable noncontrolling interest | Discounted Cash Flow | Discount Rate | 12.0\% | 12.0\% | 12.5\% |
| Redeemable noncontrolling interest |  | Long-term Growth |  |  |  |
|  | Discounted Cash Flow | Rate | 1.5\% | 1.5\% | 1.5\% |

Any significant increases or decreases in discount rate or long-term growth rate inputs could result in significantly higher or lower fair value measurements.

Certain assets and liabilities are measured at fair value on a non-recurring basis using Level 3 inputs as defined in ASC 820 . These assets are not measured at fair value on an ongoing basis but are subject to fair value adjustments only in certain circumstances. Included in this category are goodwill, radio broadcasting licenses and other intangible assets, net, that are written down to fair value when they are determined to be impaired, as well as content assets that are periodically written down to net realizable value. The Company concluded these assets were not impaired during the six months ended June 30,2015 , June 30,2014 , and, therefore, were reported at carrying value as opposed to fair value.

## (i) Impact of Recently Issued Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, " Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360)—Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). ASU 2014-08 changes the requirements for reporting discontinued operations. Under ASU 2014-08, only disposals representing a strategic shift in operations and having a major effect on the entity's operations and financial results should be presented as discontinued operations. Additionally, ASU 2014-08 requires expanded disclosures about discontinued operations. ASU 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014, with early adoption permitted for disposals that have not been reported in financial statements previously issued. The Company will apply the provisions of ASU 2014-08 to future reporting of disposals.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," ("ASU 2014-09") which supersedes the revenue recognition requirements in ASC 605, "Revenue Recognition" and most industry-specific guidance throughout the codification. The standard requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On July 9, 2015, the FASB voted and approved to defer the effective date of ASU 2014-09 by one year. As a result, ASU 2014-09 will be effective for fiscal years beginning after December 15, 2017, with early adoption permitted but not prior to the original effective date of annual periods beginning after December 15, 2016. The Company has not yet completed its assessment of the impact of the new standard, including possible transition alternatives, on its financial statements.

In April 2015, the FASB issued ASU 2015-03, " Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"). ASU 2015-03 aims to simplify the presentation of debt issuance costs by requiring debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Currently, debt issuance costs are presented as a deferred charge under GAAP. ASU 2015-03 is effective for fiscal years beginning after December 15 , 2015, and is to be applied retrospectively, with early adoption permitted. The Company has early adopted ASU 2015-03 during the three months ended June 30 , 2015 , resulting in approximately $\$ 8.3$ million of net debt issuance costs presented as a direct deduction to the Company's long-term debt in the consolidated balance sheet as of June 30, 2015. The retrospective application of ASU 2015-03 decreased other intangible assets and long-term debt by approximately $\$ 6.9$ million in the consolidated balance sheet as of December 31, 2014.

## (j) Redeemable noncontrolling interest

Redeemable noncontrolling interests are interests in subsidiaries that are redeemable outside of the Company's control either for cash or other assets. These interests are classified as mezzanine equity and measured at the greater of estimated redemption value at the end of each reporting period or the historical cost basis of the noncontrolling interests adjusted for cumulative earnings allocations. The resulting increases or decreases in the estimated redemption amount are affected by corresponding charges against retained earnings, or in the absence of retained earnings, additional paid-in-capital.

## (k) Content Assets

TV One has entered into contracts to acquire entertainment programming rights and programs from distributors and producers. The Company also has programming for which the Company has engaged third parties to develop and produce, and it owns most or all rights to this programming. The license periods granted in these contracts generally run from one year to perpetuity. Contract payments are made in installments over terms that are generally shorter than the contract period. Each contract is recorded as an asset and a liability at an amount equal to its gross contractual commitment when the license period begins and the program is available for its first airing.

Program rights are recorded at the lower of amortized cost or estimated net realizable value. Program rights are amortized based on the greater of the usage of the program or term of license. Estimated net realizable values are based on the estimated revenues directly associated with the program materials and related expenses. The Company did not record any additional amortization expense as a result of evaluating its contracts for recoverability for the three months ended June 30, 2015 and 2014. The Company did not record any additional amortization expense as a result of evaluating its contracts for recoverability for the six months ended June 30,2015 , and recorded $\$ 58,000$ additional amortization expense as a result of evaluating its contracts for recoverability for the six months ended June 30, 2014. All produced and licensed content is classified as a long-term asset, except for the portion of the unamortized content balance that will be amortized within one year which is classified as a current asset.

Tax incentives state and local governments offer that are directly measured based on production activities are recorded as reductions in production costs.

## (l) Derivatives

The Company recognizes all derivatives at fair value in the consolidated balance sheet as either an asset or liability. The accounting for changes in the fair value of a derivative, including certain derivative instruments embedded in other contracts, depends on the intended use of the derivative and the resulting designation. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged item are recognized in the statement of operations. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded in other comprehensive income and are recognized in the statement of operations when the hedged item affects net income. If a derivative does not qualify as a hedge, it is marked to fair value through the statement of operations.

The Company has accounted for an award called for in the CEO's employment agreement (the "Employment Agreement Award") as a derivative instrument in accordance with ASC 815, "Derivatives and Hedging." The Company estimated the fair value of the award at June 30, 2015, and December 31, 2014 , to be approximately $\$ 19.5$ million and $\$ 18.0$ million, respectively, and accordingly, adjusted its liability to this amount. The long-term portion is recorded in other long-term liabilities and the current portion is recorded in other current liabilities in the consolidated balance sheets. The expense associated with the Employment Agreement Award was recorded in the consolidated statements of operations as corporate selling, general and administrative expenses and was approximately $\$ 1.1$ million and $\$ 550,000$ for the three months ended June 30 , 2015, and 2014, respectively and was approximately $\$ 1.5$ million for each of the six months ended June 30,2015 , and 2014, respectively.

The Company's obligation to pay the award will be triggered only after the Company's recovery of the aggregate amount of its capital contribution in TV One and only upon actual receipt of distributions of cash or marketable securities or proceeds from a liquidity event with respect to the Company's membership interest in TV One. The CEO was fully vested in the award upon execution of the Employment Agreement, and the award lapses if the CEO voluntarily leaves the Company, or is terminated for cause. As noted in our current report on Form 8-K filed October 6, 2014, the Compensation Committee of the Board of Directors of the Company has approved terms for a new employment agreement with the CEO, including a renewal of the Employment Agreement Award upon similar terms as in the prior Employment Agreement. While a new employment agreement has not been executed as of the date of this report, the CEO is being compensated according to the new terms approved by the Compensation Committee.

## 2. ACQUISITIONS AND DISPOSITIONS:

As of June 2011, our remaining Boston radio station was made the subject of a time brokerage agreement ("TBA"), similar in operation to a local marketing agreement ("LMA"), whereby, we have made available, for a fee, air time on this station to another party. On February 3 , 2014, the Company executed a new TBA, effective December 1, 2013, for its remaining station in Boston. The TBA has a three-year term, and at the conclusion of the TBA, the Company's remaining Boston station is contracted to be conveyed to Radio Boston Broadcasting, Inc., an affiliate of Pacific Media International, LLC. As a result, that station's radio broadcasting license was classified as a long-term other asset as of June 30, 2015, and December 31, 2014, and is being amortized through the anticipated conveyance date.

On October 20, 2011, we entered into a TBA with WGPR, Inc. ("WGPR"). Pursuant to the TBA, beginning October 24, 2011, we began to broadcast programs produced, owned or acquired by Radio One on WGPR's Detroit radio station, WGPR-FM. We pay certain operating costs of WGPR-FM, and in exchange we retain all revenues from the sale of the advertising within the programming we provide. The original term of the TBA was through December 31 , 2014; however, in September 2014, we entered into an amendment to the TBA to extend the term of the TBA through December 31, 2019. Under the terms of the TBA, WGPR has also granted us certain rights of first negotiation and first refusal with respect to the sale of WGPR-FM by WGPR and with respect to any potential time brokerage agreement for WGPR-FM covering any time period subsequent to the term of the TBA.

On February 27, 2014, the Company completed the acquisition of Gaffney Broadcasting, Incorporated ("Gaffney"), which consisted of an AM and FM station (WOSF-FM) in the Charlotte market. Total consideration paid for the two stations was approximately $\$ 7.7$ million, which included a deposit that was paid in a prior period. In connection with the acquisition, the Company added Gaffney as a party to the agreements governing its outstanding notes and its senior credit facility. At the February 27, 2014 acquisition date, the AM station assets were classified as assets held for sale in the amount of $\$ 225,000$. On March 31, 2014, the AM station assets held for sale were sold for $\$ 225,000$. The Company's purchase accounting to reflect the fair value of assets acquired and liabilities assumed consisted of approximately $\$ 426,000$ to fixed assets, $\$ 7.0$ million to radio broadcasting licenses, $\$ 2.7$ million to goodwill, $\$ 44,000$ to other definite-lived intangible assets and $\$ 2.7$ million to deferred tax liabilities.

On December 17, 2014, the Company acquired certain assets of GG Digital, Inc., including the website and brand Global Grind ("Global Grind"), and for accounting purposes this was considered a business acquisition. The Global Grind website and brand was subsequently integrated into Interactive One. Total consideration paid was approximately $\$ 2.0$ million. The Company's purchase accounting to reflect the fair value of assets acquired consisted of approximately $\$ 440,000$ to content, approximately $\$ 1.2$ million to goodwill, $\$ 314,000$ to brand, $\$ 38,000$ to mobile software application and $\$ 10,000$ to trademarks, trade names and domain names.

On April 17, 2015, the Company used the net proceeds from its issuance of its 2022 Notes, along with the 2015 Credit Facility and Comcast Note, to refinance certain indebtedness and finance the previously announced purchase of the membership interests of an affiliate of Comcast Corporation ("Comcast") in TV One (the "Comcast Buyout"). In connection with the Comcast Buyout, the Company acquired the additional membership interest in TV One for approximately $\$ 221.7$ million which consisted of approximately $\$ 211.1$ million in cash paid at closing with a subsequent favorable working capital adjustment of approximately $\$ 1.3$ million and the issuance of the Comcast Note in the amount of approximately $\$ 11.9$ million. The Company now owns a $99.6 \%$ interest in TV One.

## 3. GOODWILL AND RADIO BROADCASTING LICENSES:

## Impairment Testing

In accordance with ASC 350, "Intangibles - Goodwill and Other," we do not amortize our indefinite-lived radio broadcasting licenses and goodwill. Instead, we perform a test for impairment annually or on an interim basis when events or changes in circumstances or other conditions suggest impairment may have occurred in any given reporting unit. Other intangible assets continue to be amortized on a straight-line basis over their useful lives. We perform our annual impairment test as of October 1 of each year.

## Valuation of Broadcasting Licenses

During the second quarter of 2015, the total market revenue growth for certain markets in which we operate was below that used in our 2014 annual impairment testing. We deemed that to be an impairment indicator that warranted interim impairment testing of certain markets' radio broadcasting licenses, which we performed as of June 30,2015 . There was no impairment identified as part of this testing. During the first and second quarters of 2014 , the total market revenue growth for certain markets in which we operate was below that used in our 2013 annual impairment testing. We deemed that to be an impairment indicator that warranted interim impairment testing of certain markets' radio broadcasting licenses, which we performed as of March 31 , 2014 and June 30, 2014. There was no impairment identified as part of this testing. There were no impairment indicators present for any of our other radio broadcasting licenses. Below are some of the key assumptions used in the income approach model for estimating broadcasting licenses fair values for the annual impairment assessment as of October 1, 2014, and interim impairment assessments for the quarters ended June 30,2015 and 2014.

## Valuation of Goodwill

During the second quarter of 2015 , we identified an impairment indicator at one of our radio markets, and as such, we performed an interim analysis for certain radio market goodwill as of June 30, 2015. Similarly, during the first and second quarters of 2014, we identified impairment indicators at certain of our radio markets, and, as such, we performed an interim impairment analysis for certain radio market reporting units as of June 30, 2014 and March 31 , 2014. No goodwill impairment was identified during the three or six months ended June 30, 2015 and 2014. Below are some of the key assumptions used in the income approach model for estimating reporting unit fair values for the annual impairment assessment as of October 1 , 2014, and interim impairment assessments for the quarters ended June 30, 2015 and 2014

## 2022 Notes and Current Credit Facilities

On April 17, 2015, the Company closed its private offering of $\$ 350.0$ million aggregate principal amount of $7.375 \%$ senior secured notes due 2022 (the " 2022 Notes"). The 2022 Notes were offered at an original issue price of $100.0 \%$ plus accrued interest from April 17 , 2015 and will mature on April 15 , 2022. Interest on the 2022 Notes accrues at the rate of $7.375 \%$ per annum and is payable semiannually in arrears on April 15 and October 15 , commencing on October 15, 2015. The 2022 Notes are guaranteed, jointly and severally, on a senior secured basis by the Company's existing and future domestic subsidiaries, including TV One, that guarantee any of its new $\$ 350.0$ million senior secured credit facility (the " 2015 Credit Facility") entered into concurrently with the closing of the Notes.

The 2015 Credit Facility matures on December 31, 2018. At the Company's election, the interest rate on borrowings under the 2015 Credit Facility is based on either (i) the then applicable base rate plus $3.5 \%$ (as defined in the 2015 Credit Facility) as, for any day, a rate per annum (rounded upward, if necessary, to the next $1 / 100$ th of $1 \%$ ) equal to the greater of (a) the prime rate published in the Wall Street Journal, (b) $1 / 2$ of $1 \%$ in excess rate of the overnight Federal Funds Rate at any given time and (c) the one-month LIBOR rate commencing on such day plus $1.00 \%$ ), or (ii) the then applicable LIBOR rate plus $4.5 \%$ (as defined in the 2015 Credit Facility). The average interest rate was $4.78 \%$ for the three months ended June 30 , 2015. Quarterly installments of $0.25 \%$, or $\$ 875,000$, of the principal balance on the term loan are payable on the last day of each March, June, September and December beginning on September 30, 2015.

In connection with the closing of the financing transactions, the Company and the guarantor parties thereto entered into a Fourth Supplemental Indenture to the indenture governing the 2020 Notes. Pursuant to this Fourth Supplemental Indenture, TV One, which previously did not guarantee the 2020 Notes, became a guarantor under the 2020 Notes indentures. In addition, the provisions contained in the Third Supplemental Indenture previously disclosed in the Company's Current Report on Form 8-K, filed April 1, 2015, which permitted the Company to complete the transactions became operative. The closing of the financing transactions caused a "Triggering Event" (as defined in the 2020 Notes Indenture) under the 2020 Notes Indenture and, as a result, the 2020 Notes became an unsecured obligation of the Company and the subsidiary guarantors and rank equal in right of payment with the Company's other senior indebtedness.

The Company used the net proceeds from the 2022 Notes, along with term loan borrowings under the 2015 Credit Facility, to refinance its existing senior secured credit facility, refinance $\$ 119.0$ million in outstanding indebtedness of TV One and TV One Capital Corp. ("Capital Corp."), finance the previously announced Comcast Buyout and pay the related accrued interest, premiums, fees and expenses associated therewith.

The 2015 Credit Facility contains affirmative and negative covenants that the Company is required to comply with, including:
(a) maintaining an interest coverage ratio of no less than:

- 1.25 to 1.00 on June 30,2015 and the last day of each fiscal quarter thereafter.
(b) maintaining a senior leverage ratio of no greater than:
- 5.85 to 1.00 on June 30,2015 and the last day of each fiscal quarter thereafter.
(c) limitations on:
- liens;
- sale of assets;
- payment of dividends; and
- mergers.

As of June 30, 2015, ratios calculated in accordance with the 2015 Credit Facility were as follows:

|  | $\begin{gathered} \text { As of } \\ \text { June } \\ \mathbf{3 0 , 2 0 1 5} \\ \hline \end{gathered}$ |  | Covenant Limit | Excess Coverage |

As of June 30, 2015, the Company was in compliance with all of its financial covenants under the 2015 Credit Facility.

As of June 30, 2015, the Company had outstanding approximately $\$ 350.0$ million on its 2015 Credit Facility. The original issue discount is being reflected as an adjustment to the carrying amount of the debt obligations and amortized to interest expense over the term of the credit facility. The Company has early adopted ASU 2015-03 during the three months ended June 30, 2015, resulting in approximately $\$ 8.3$ million of net debt issuance costs presented as a direct deduction to the Company's long-term debt in the consolidated balance sheet as of June 30, 2015. The retrospective application of ASU 2015-03 decreased other intangible assets and long-term debt by approximately $\$ 6.9$ million in the consolidated balance sheet as of December 31 , 2014 .

## 2011 Credit Facilities

On March 31, 2011, the Company entered into a senior secured credit facility (the " 2011 Credit Agreement") with a syndicate of banks, and simultaneously borrowed $\$ 386.0$ million to retire all outstanding obligations under the Company's previous amended and restated credit agreement and to fund our obligation with respect to a capital call initiated by TV One. The total amount available under the 2011 Credit Agreement was $\$ 411.0$ million, initially consisting of a $\$ 386.0$ million term loan facility that matured on March 31, 2016, and a $\$ 25.0$ million revolving loan facility that matured on March 31,2015 . Borrowings under the credit facilities were subject to compliance with certain covenants including, but not limited to, certain financial covenants. Proceeds from the credit facilities could be used for working capital, capital expenditures made in the ordinary course of business, its common stock repurchase program, permitted direct and indirect investments and other lawful corporate purposes. On December 19, 2012, the Company entered into an amendment to the 2011 Credit Agreement (the "December 2012 Amendment"). The December 2012 Amendment: (i) modified financial covenant levels with respect to the Company's total-leverage, secured-leverage, and interest-coverage ratios; (ii) increased the amount of cash the Company can net for determination of its net indebtedness tests; and (iii) extended the time for certain of the 2011 Credit Agreement's call premium while reducing the time for its later and lower premium.

On January 21, 2015, the Company entered into a second amendment to the 2011 Credit Agreement (the "Second Amendment") with its lenders. The provisions of the 2011 Credit Agreement relating to the call premium were revised by the Second Amendment to extend the call protection from April 1 , 2015 until maturity. The Second Amendment provided a call premium of $101.5 \%$ if the 2011 Credit Agreement were refinanced with proceeds from a notes offering and $100.5 \%$ if the 2011 Credit Agreement was refinanced with proceeds from any other repayment, including proceeds from a new term loan. The call premium was payable at the earlier of any refinancing or final maturity.

The Second Amendment also excluded any "going concern" or qualified audit opinion solely as a result of the upcoming revolver or term loan maturities from the Event of Default provisions of the 2011 Credit Agreement. Next, the Second Amendment provided for the ability to "amend and extend" both the term loan and the revolving credit facility provided for by the 2011 Credit Agreement and added a $\$ 2$ million lien basket for letters of credit not issued under the 2011 Credit Agreement.

Finally, beginning with the quarter ending March 31, 2015, the Second Amendment implemented certain changes to the financial covenants the Company was required to comply with in order to remain in compliance with the terms of the 2011 Credit Agreement. As noted above, the Company used the net proceeds from the private offering, along with term loan borrowings under the 2015 Credit Facility, to refinance its 2011 Credit Agreement, as amended. The Company recorded a loss on retirement of debt of approximately $\$ 7.1$ million for the three months ended June 30 , 2015. This amount included a write-off of approximately $\$ 1.3$ million of previously capitalized debt financing costs, a write-off of $\$ 844,000$ of original issue discount associated with the 2011 Credit Agreement, as amended, as well as $\$ 827,000$ associated with the call premium to refinance the credit facility, $\$ 106,000$ associated with the consent to the existing holders of the 2020 Notes and approximately $\$ 4.0$ million of costs associated with the financing transactions.

The 2011 Credit Agreement, as amended on December 19, 2012 and January 21, 2015, contained affirmative and negative covenants that the Company was required to comply with. In accordance with the 2011 Credit Agreement, as amended, the calculations for the ratios did not include the operating results or related debt of TV One, but rather included our proportionate share of cash dividends received from TV One for periods presented.

Under the terms of the 2011 Credit Agreement, as amended, interest on base rate loans was payable quarterly and interest on LIBOR loans was payable monthly or quarterly. The base rate was equal to the greater of: (i) the prime rate; (ii) the Federal Funds Effective Rate plus $0.50 \%$; or (iii) the LIBOR Rate for a one-month period plus $1.00 \%$. The applicable margin on the 2011 Credit Agreement was between (i) $4.50 \%$ and $5.50 \%$ on the revolving portion of the facility and (ii) $5.00 \%$ (with a base rate floor of $2.5 \%$ per annum) and $6.00 \%$ (with a LIBOR floor of $1.5 \%$ per annum) on the term portion of the facility. The average interest rate was $7.50 \%$ for the first quarter of 2015 prior to the refinancing. Quarterly installments of $0.25 \%$, or $\$ 957,000$, of the principal balance on the term loan were payable on the last day of each March, June, September and December.

On February 24, 2015, the Company entered into a letter of credit reimbursement and security agreement. As of June 30, 2015, the Company had letters of credit totaling $\$ 1.0$ million under the agreement. Letters of credit issued under the agreement are required to be collateralized with cash.

During the three and six months ended June 30, 2015, the Company repaid approximately $\$ 367.6$ million and $\$ 368.5$ million, respectively, under the 2011 Credit Agreement, as amended. During the three and six months ended June 30, 2014, the Company repaid approximately $\$ 2.0$ million and $\$ 3.0$ million, respectively, under the 2011 Credit Agreement, as amended. The original issue discount was being reflected as an adjustment to the carrying amount of the debt obligations and amortized to interest expense over the term of the credit facility. According to the terms of the Credit Agreement, as amended, the Company did not make an excess cash flow payment in April 2015. According to the terms of the Credit Agreement, as amended, the Company made an excess cash flow payment of approximately \$1.1 million during April 2014.

## Senior Subordinated Notes

On November 24, 2010, we issued $\$ 286.8$ million of our $12.5 \% / 15 \%$ Senior Subordinated Notes due May 2016 (the " 2016 Notes") in a private placement and exchanged and then cancelled approximately $\$ 97.0$ million of $\$ 101.5$ million in aggregate principal amount outstanding of our $8^{7} / 8 \%$ senior subordinated notes due 2011 (the " 2011 Notes") and approximately $\$ 199.3$ million of $\$ 200.0$ million in aggregate principal amount outstanding of our $6 \frac{3}{8} \%$ Senior Subordinated Notes that matured in February 2013 (the " 2013 Notes" and the 2013 Notes together with the 2011 Notes, the "Prior Notes"). Subsequently, we repurchased or redeemed all remaining Prior Notes pursuant to the terms of their respective indentures. Effective March 13, 2014, the Company repurchased or otherwise redeemed all of the amounts outstanding under the 2016 Notes using proceeds from our 2020 Notes (defined below). The Company recorded a loss on retirement of debt of approximately $\$ 5.7$ million during the first quarter of 2014 . This amount included a write-off of approximately $\$ 4.1$ million of previously capitalized debt financing costs and approximately $\$ 1.6$ million associated with the net premium paid to retire the 2016 Notes.

Interest on the 2016 Notes, that the Company repurchased or otherwise redeemed in March 2014, was initially payable in cash, or at our election, partially in cash and partially through the issuance of additional 2016 Notes (a "PIK Election") on a quarterly basis in arrears. For fiscal 2014, interest accrued at a rate of $12.5 \%$ and was payable in cash.

On February 10 , 2014, the Company closed a private placement offering of $\$ 335.0$ million aggregate principal amount of $9.25 \%$ senior subordinated notes due 2020 (the " 2020 Notes"). The 2020 Notes were offered at an original issue price of $100.0 \%$ plus accrued interest from February 10 , 2014. The 2020 Notes mature on February 15,2020 . Interest accrues at the rate of $9.25 \%$ per annum and is payable semiannually in arrears on February 15 and August 15 in the amount of approximately $\$ 15.5$ million, commencing on August 15,2014 . The 2020 Notes are guaranteed by certain of the Company's existing and future domestic subsidiaries and any other subsidiaries that guarantee the existing senior credit facility or any of the Issuer's other syndicated bank indebtedness or capital markets securities. The Company used the net proceeds from the offering to repurchase or otherwise redeem all of the amounts currently outstanding under its 2016 Notes and to pay the related accrued interest, premiums, fees and expenses associated therewith. As of June 30 , 2015, the Company had $\$ 335.0$ million of our 2020 Notes outstanding. During the six months ended June 30, 2014, the Company capitalized approximately $\$ 4.5$ million of costs associated with our 2020 Notes.

The indenture that governs the 2020 Notes contains covenants that restrict, among other things, the ability of the Company to incur additional debt, purchase common stock, make capital expenditures, make investments or other restricted payments, swap or sell assets, engage in transactions with related parties, secure non-senior debt with assets, or merge, consolidate or sell all or substantially all of its assets.

## TV One Senior Secured Notes

TV One issued $\$ 119.0$ million in senior secured notes on February 25,2011 . The proceeds from the notes were used to purchase equity interests from certain financial investors and TV One management. The notes bore interest at $10.0 \%$ per annum, which was payable monthly, and the entire principal amount was due on March 15, 2016. In connection with the closing of the financing transactions on April 17, 2015, the TV One senior secured notes were repaid.

## Comcast Note

The Company also has outstanding our new senior unsecured promissory note in the aggregate principal amount of approximately $\$ 11.9$ million due to Comcast. The Comcast Note bears interest at $10.47 \%$, is payable quarterly in arrears, and the entire principal amount is due on April 17,2019 .

The Company conducts a portion of its business through its subsidiaries. Certain of the Company's subsidiaries have fully and unconditionally guaranteed the Company's 2022 Notes, 2020 Notes and the Company's obligations under the 2015 Credit Facility.

Future scheduled minimum principal payments of debt as of June 30, 2015, are as follows:

## 5. INCOME TAXES:

The Company recorded tax expense of approximately $\$ 18.5$ million on a pre-tax loss from continuing operations of approximately $\$ 6.2$ million for the six months ended June 30, 2015, based on the actual effective tax rate for the current period. Because our income tax expense does not have a correlation to our pre-tax earnings, small changes in those earnings can have a significant impact on the income tax expense we recognize. The Company continues to estimate a range of possible outcomes due to the proportion of deferred tax expense from indefinite-lived intangible assets over pre-tax earnings. As a result, we believe the actual effective tax rate best represents the estimated effective rate for the six months ended June 30, 2015, in accordance with ASC 740-270, "Interim Reporting."

As of June 30, 2015, the Company continues to maintain a full valuation allowance on its deferred tax assets for substantially all entities and jurisdictions, for its net deferred tax assets, but excludes deferred tax liabilities related to indefinite-lived intangible assets. In accordance with ASC 740 , "Accounting for Income Taxes", the Company continually assesses the adequacy of the valuation allowance by assessing the likely future tax consequences of events that have been realized in the Company's financial statements or tax returns, tax planning strategies, and future profitability. As of June 30 , 2015, the Company does not believe it is more likely than not that the deferred tax assets will be realized. As part of the assessment, the Company has not included the deferred tax liability related to indefinite-lived intangible assets as a source of future taxable income to support realization of the deferred tax assets.

On April 17, 2015, the Company purchased Comcast's membership interest in TV One (See Note 2 - Acquisitions and Dispositions) which resulted in approximately $\$ 196.7$ million of tax basis increase for the assets acquired. The increased ownership of TV One and the resulting increase in the tax basis of the assets, resulted in an adjustment to the deferred tax liability ("DTL") related to the indefinite-lived assets of TV One. The Company evaluated the DTL and determined that a portion will not reverse within the requisite period and cannot be offset against the deferred tax assets.

## 6. STOCKHOLDERS' EQUITY:

## Stock Repurchase Program

In January 2013, the Company's Board of Directors authorized a repurchase of shares of the Company's Class A and Class D common stock (the "January 2013 Repurchase Authorization"). Under the January 2013 Repurchase Authorization, the Company is authorized, but is not obligated, to repurchase up to $\$ 2.0$ million worth of its Class A and/or Class D common stock. Subsequently, in May 2013, the Company's Board of Directors authorized a further \$1.5 million worth of stock repurchases (the "May 2013 Repurchase Authorization"). Thus, the aggregate amount authorized between the January 2013 Repurchase Authorization and the May 2013 Repurchase Authorization was $\$ 3.5$ million. As of June 30, 2015, the Company had $\$ 57,000$ remaining between the two authorizations with respect to its Class A and Class D common stock. In addition, the Company has limited but ongoing authority to purchase shares of Class D common stock (in one or more transactions at any time there remain outstanding grants) under the Company's 2009 Stock Plan (as defined below) to satisfy any employee's or other recipient's tax obligations in connection with the exercise of an option or a share grant under the 2009 Stock Plan, to the extent that the Company has capacity under its financing agreements (i.e., its current credit facilities and indentures) (each a "Stock Vest Tax Repurchase"). Repurchases may be made from time to time in the open market or in privately negotiated transactions in accordance with applicable laws and regulations. The timing and extent of any repurchases will depend upon prevailing market conditions, the trading price of the Company's Class A and/or Class D common stock and other factors, and subject to restrictions under applicable law. The Company executes upon the stock repurchase program in a manner consistent with market conditions and the interests of the stockholders, including maximizing stockholder value. During the three and six months ended June 30, 2015, the Company did not repurchase any Class A Common Stock and executed a Stock Vest Tax Repurchase of 345,293 shares of Class D Common Stock in the amount of approximately $\$ 1.4$ million at an average price of $\$ 4.12$ per share. During the three and six months ended June 30 , 2014 , the Company did not repurchase any Class A Common Stock or Class D Common Stock.

## Stock Option and Restricted Stock Grant Plan

A stock option and restricted stock plan ("the 2009 Stock Plan") was approved by the stockholders at the Company's annual meeting on December 16, 2009. The Company had the authority to issue up to $8,250,000$ shares of Class D Common Stock under the 2009 Stock Plan. On September 26, 2013, the Board of Directors adopted, and our stockholders approved on November 14, 2013, certain amendments to and restatement of the 2009 Stock Plan (the "Amended and Restated 2009 Stock Plan"). The amendments under the Amended and Restated 2009 Stock Plan primarily affected (i) the number of shares with respect to which options and restricted stock grants may be granted under the 2009 Stock Plan and (ii) the maximum number of shares that can be awarded to any individual in any one calendar year. The Amended and Restated 2009 Stock Plan increased the authorized plan shares remaining available for grant to $7,000,000$ shares of Class D common stock after giving effect to the issuances prior to the amendment. Prior to the amendment, under the 2009 Plan, in any one calendar year, the compensation committee could not grant to any one participant options to purchase, or grants of, a number of shares of Class D common stock in excess of $1,000,000$. Under the Amended and Restated 2009 Stock Plan, this limitation was eliminated. The purpose of eliminating this limitation is to provide the compensation committee with maximum flexibility in setting executive compensation. On April 13, 2015, the Board of Directors adopted, and our stockholders approved on June 2, 2015, a further amendment to the Amended and Restated 2009 Stock Plan. This further amendment increased the authorized plan shares remaining available for grant to $8,250,000$ shares of Class D common stock. As of June 30, 2015, 8,231,230 shares of Class D common stock were available for grant under the Amended and Restated 2009 Stock Plan.

On September 30, 2014, the Compensation Committee ("Compensation Committee") of the Board of Directors of the Company approved the principal terms of new employment agreements for each of the Company's named executive officers which included the granting of restricted shares and stock options under a long-term incentive plan ("LTIP") as follows, effective October 6, 2014:

The grants were effective October 6, 2014, and will vest in three installments, with the first installment of $33 \%$ vesting on April 20, 2015. The remaining two installments will vest equally on December 31, 2015 and December 31, 2016. The following information should be read in conjunction with "Selected Financial Data" and the Consolidated Financial Statements and Notes thereto included elsewhere in this report and the audited financial statements and Management's Discussion and Analysis contained in our Annual Report on Form 10-K, for the year ended December 31, 2014.

## Introduction

## Revenue

Within our core radio business, we primarily derive revenue from the sale of advertising time and program sponsorships to local and national advertisers on our radio stations. Advertising revenue is affected primarily by the advertising rates our radio stations are able to charge, as well as the overall demand for radio advertising time in a market. These rates are largely based upon a radio station's audience share in the demographic groups targeted by advertisers, the number of radio stations in the related market, and the supply of, and demand for, radio advertising time. Advertising rates are generally highest during morning and afternoon commuting hours.

In the broadcasting industry, radio stations and television stations often utilize trade or barter agreements to reduce cash expenses by exchanging advertising time for goods or services. In order to maximize cash revenue for our spot inventory, we closely monitor the use of trade and barter agreements.

Interactive One derives its revenue principally from advertising services, including diversity recruiting advertising. Advertising services include the sale of banner and sponsorship advertisements. Advertising revenue is recognized either as impressions (the number of times advertisements appear in viewed pages) are delivered, when "click through" purchases are made or leads are generated, or ratably over the contract period, where applicable. In addition, Interactive One derives revenue from its studio operations, in which it provides third-party clients with publishing services including digital platforms and related expertise. In the case of the studio operations, revenue is recognized primarily based on fixed contractual monthly fees or as a share of the third party's reported revenue.

TV One generates the Company's cable television revenue, and derives its revenue principally from advertising and affiliate revenue. Advertising revenue is derived from the sale of television air time to advertisers and is recognized when the advertisements are run. TV One also derives revenue from affiliate fees under the terms of various affiliation agreements based upon a per subscriber fee multiplied by most recent subscriber counts reported by the applicable affiliate.

Net revenue consists of gross revenue, net of local and national agency and outside sales representative commissions. Agency and outside sales representative commissions are calculated based on a stated percentage applied to gross billing.

The following chart shows the percentage of consolidated net revenue generated by each reporting segment.

|  | For The Three Months Ended June 30, |  | For The Six Months Ended June 30, |  |
| :---: | :---: | :---: | :---: | :---: |

| Percentage of net revenue generated by corporate/eliminations | (1.5)\% | (1.2)\% | (1.4)\% | (1.3)\% |

Reach's Media's net revenue increased for the quarter ended June 30, 2015, compared to the same period in 2014 due primarily to the timing of the "Tom Joyner Fantastic Voyage" which was held in the first quarter of 2014 and held in the second quarter of 2015. National advertising also includes advertising revenue generated from our internet segment. The balance of net revenue from our radio segment was generated from tower rental income, ticket sales and revenue related to our sponsored events, management fees and other revenue.

The following chart shows net revenue generated from our core radio business as a percentage of consolidated net revenue. In addition, it shows the percentages generated from local and national advertising as a subset of net revenue from our core radio business.

## Expenses

Our significant expenses are: (i) employee salaries and commissions; (ii) programming expenses; (iii) marketing and promotional expenses; (iv) rental of premises for office facilities and studios; (v) rental of transmission tower space; (vi) music license royalty fees; and (vii) content amortization. We strive to control these expenses by centralizing certain functions such as finance, accounting, legal, human resources and management information systems and, in certain markets, the programming management function. We also use our multiple stations, market presence and purchasing power to negotiate favorable rates with certain vendors and national representative selling agencies. In addition to salaries and commissions, major expenses for our internet business include membership traffic acquisition costs, software product design, post application software development and maintenance, database and server support costs, the help desk function, data center expenses connected with internet service provider ("ISP") hosting services and other internet content delivery expenses. Major expenses for our cable television business include content acquisition and amortization, sales and marketing.

We generally incur marketing and promotional expenses to increase our audiences. However, because Nielsen reports ratings either monthly or quarterly, depending on the particular market, any changed ratings and the effect on advertising revenue tends to lag behind both the reporting of the ratings and the incurrence of advertising and promotional expenditures.

## Measurement of Performance

We monitor and evaluate the growth and operational performance of our business using net income and the following key metrics:
(a) Net revenue: The performance of an individual radio station or group of radio stations in a particular market is customarily measured by its ability to generate net revenue. Net revenue consists of gross revenue, net of local and national agency and outside sales representative commissions consistent with industry practice. Net revenue is recognized in the period in which advertisements are broadcast. Net revenue also includes advertising aired in exchange for goods and services, which is recorded at fair value, revenue from sponsored events and other revenue. Net revenue is recognized for our online business as impressions are delivered, as "click throughs" are made or ratably over contract periods, where applicable. Net revenue is recognized for our cable television business as advertisements are run, and during the term of the affiliation agreements at levels appropriate for the most recent subscriber counts reported by the affiliate, net of launch support.
(b) Station operating income: Net income (loss) before depreciation and amortization, income taxes, interest expense, interest income, noncontrolling interests in income of subsidiaries, other (income) expense, corporate expenses, stock-based compensation, impairment of long-lived assets and loss on retirement of debt, is commonly referred to in our industry as station operating income. Station operating income is not a measure of financial performance under generally accepted accounting principles in the United States ("GAAP"). Nevertheless, station operating income is a significant basis used by our management to measure the operating performance of our stations within the various markets. Station operating income provides helpful information about our results of operations, apart from expenses associated with our fixed and long-lived intangible assets, income taxes, investments, impairment charges, debt financings and retirements, corporate overhead and stock-based compensation. Our measure of station operating income may not be comparable to similarly titled measures of other companies as our definition includes the results of all four of our operating segments (radio broadcasting, Reach Media, internet and cable television). Station operating income does not represent operating loss or cash flow from operating activities, as those terms are defined under GAAP, and should not be considered as an alternative to those measurements as an indicator of our performance.
(c) Station operating income margin: Station operating income margin represents station operating income as a percentage of net revenue. Station operating income margin is not a measure of financial performance under GAAP. Nevertheless, we believe that station operating income margin is a useful measure of our performance because it provides helpful information about our profitability as a percentage of our net revenue. Station operating margin includes results from all four segments (radio broadcasting, Reach Media, internet and cable television).
(d) Adjusted EBITDA: Adjusted EBITDA consists of net (loss) income plus (1) depreciation and amortization, income taxes, interest expense, noncontrolling interests in income of subsidiaries, impairment of long-lived assets, stock-based compensation, loss on retirement of debt, employment agreement and incentive plan award expenses, less (2) other income and interest income. Net income before interest income, interest expense, income taxes, depreciation and amortization is commonly referred to in our business as "EBITDA." Adjusted EBITDA and EBITDA are not measures of financial performance under generally accepted accounting principles. We believe Adjusted EBITDA is often a useful measure of a company's operating performance and is a significant basis used by our management to measure the operating performance of our business because Adjusted EBITDA excludes charges for depreciation, amortization and interest expense that have resulted from our acquisitions and debt financing, our taxes, impairment charges, as well as our equity in (income) loss of our affiliated company and gain on retirements of debt. Accordingly, we believe that Adjusted EBITDA provides useful information about the operating performance of our business, apart from the expenses associated with our fixed assets and long-lived intangible assets, capital structure or the results of our affiliated company. Adjusted EBITDA is frequently used as one of the bases for comparing businesses in our industry, although our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies as our definition includes the results of all four of our operating segments (radio broadcasting, Reach Media, internet and cable television). Adjusted EBITDA and EBITDA do not purport to represent operating income or cash flow from operating activities, as those terms are defined under generally accepted accounting principles, and should not be considered as alternatives to those measurements as an indicator of our performance.

## Net revenue

During the three months ended June 30,2015 , we recognized approximately $\$ 119.8$ million in net revenue compared to approximately $\$ 108.4$ million during the same period in 2014 . These amounts are net of agency and outside sales representative commissions, which were approximately $\$ 7.1$ million during the three months ended June 30,2015 , compared to approximately $\$ 8.0$ million for the comparable period in 2014 with continued declines in net revenue in our four largest markets. Net revenues from our radio broadcasting segment for the quarter ended June 30, 2015, decreased $4.5 \%$ from the same period in 2014. Based on reports prepared by the independent accounting firm Miller, Kaplan, Arase \& Co., LLP ("Miller Kaplan"), the markets we operate in (excluding Richmond and Raleigh which no longer participate in Miller Kaplan) decreased $1.6 \%$ in total revenues. We experienced net revenue growth in certain markets (most significantly in our Dallas, Philadelphia, Raleigh and St. Louis markets); however, this growth was offset by declines in other markets (with our Atlanta, Baltimore, Columbus, Detroit, Houston, Indianapolis and Washington D.C. markets experiencing the most significant declines). Reach Media's net revenues increased $81.4 \%$ in the second quarter 2015, compared to the same period in 2014, primarily attributable to the timing of the "Tom Joyner Fantastic Voyage" which took place during the second quarter of 2015 versus being held during the first quarter of 2014 . The event generated revenue of approximately $\$ 8.6$ million for Reach Media during the second quarter of 2015 . Adjusting for the timing difference for the "Tom Joyner Fantastic Voyage," Reach Media's revenue increased $9.6 \%$ for the quarter ended June 30, 2015, compared to the same period in 2014. This increase was primarily due to higher revenues generated from the "Tom Joyner Fantastic Voyage" in 2015 compared to 2014 . We recognized approximately $\$ 45.6$ million of revenue from our cable television segment during the three months ended June 30, 2015, compared to approximately $\$ 38.0$ million for the same period in 2014 , the increase due primarily from higher advertising demand and an increase in subscriber rates for certain affiliates. Finally, net revenues for our internet business decreased $23.6 \%$ for the three months ended June 30, 2015, compared to the same period in 2014 due to a decline in alliance revenue.

## Operating Expenses

Programming and technical, excluding stock-based compensation

Programming and technical expenses include expenses associated with on-air talent and the management and maintenance of the systems, tower facilities, and studios used in the creation, distribution and broadcast of programming content on our radio stations. Programming and technical expenses for radio also include expenses associated with our programming research activities and music royalties. For our internet business, programming and technical expenses include software product design, post-application software development and maintenance, database and server support costs, the help desk function, data center expenses connected with ISP hosting services and other internet content delivery expenses. For our cable television segment, programming and technical expenses include expenses associated with the technical, programming, production, and content management. The decrease in programming and technical expenses for the quarter ended June 30, 2015, compared to the same period in 2014 is due primarily to Reach Media's decrease in talent compensation as a result of renegotiated contracts. Talent compensation costs at Reach Media decreased by approximately $\$ 1.9$ million for the three months ended June 30, 2015, compared to the same period in 2014.

## Selling, general and administrative, excluding stock-based compensation

| Three Months Ended June 30, |  |  |  |  |  | Increase/(Decrease) |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $\$$ | $\mathbf{2 0 1 5}$ | 41,482 | $\$$ | 2014 |  |  |  | 8,037 |

Selling, general and administrative expenses include expenses associated with our sales departments, offices and facilities and personnel (outside of our corporate headquarters), marketing and promotional expenses, special events and sponsorships and back office expenses. Expenses to secure ratings data for our radio stations and visitors' data for our websites are also included in selling, general and administrative expenses. In addition, selling, general and administrative expenses for the radio broadcasting segment and internet segment include expenses related to the advertising traffic (scheduling and insertion) functions. Selling, general and administrative expenses also include membership traffic acquisition costs for our online business. The increased expense for the three months ended June 30, 2015, compared to the same period in 2014 was due primarily to timing of Reach Media's "Tom Joyner Fantastic Voyage," held during the second quarter of 2015 and the first quarter of 2014. Reach Media incurred approximately $\$ 7.5$ million of selling, general and administrative expenses associated with the event.

Corporate selling, general and administrative, excluding stock-based compensation

| Three Months Ended June 30, |  |  |  |  |  |  | Increase/(Decrease) |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 5}$ | 11,949 | $\$$ | 2014 | 9,398 | $\$$ | 2,551 |

Corporate expenses consist of expenses associated with our corporate headquarters and facilities, including personnel as well as other corporate overhead functions. The increase in corporate expenses was due to an increase in our radio broadcasting and cable segments. The radio broadcasting segment generated an increase of approximately $\$ 866,000$ primarily due to an increase in compensation expense for the Chief Executive Officer in connection with the valuation of the potential payment for the Employment Agreement Award element in his employment agreement. Our cable television segment generated an increase in expense of approximately $\$ 1.4$ million primarily due to an increase in allowance for doubtful accounts and management compensation for the three months ended June 30, 2015 compared to the same period in 2014.

Stock-based compensation

| Three Months Ended June 30, |  |  |  |  | Increase/(Decrease) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | 2014 |  |  |  |  |
| \$ | 1,198 | \$ |  | 65 | \$ |  | 1,743.1\% |

On September 30, 2014, the Compensation Committee of the Board of Directors of the Company approved the principal terms of new employment agreements for each of the Company's named executive officers which included the granting of $2,014,000$ restricted shares and $1,105,000$ stock options effective October 6, 2014, under a long-term incentive plan ("LTIP"). Also effective October 6, 2014, the Compensation Committee awarded 410,000 shares of restricted stock to certain employees pursuant to the Company's LTIP. Stock-based compensation requires measurement of compensation costs for all stock-based awards at fair value on date of grant and recognition of compensation expense over the service period for which awards are expected to vest.

Depreciation and amortization

| Three Months Ended June 30, |  |  |  | Increase/(Decrease) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |
| \$ | 8,980 | \$ | 9,236 | \$ | (256) | (2.8)\% |

The decrease in depreciation and amortization expense for the three months ended June 30, 2015, was due to the completion of useful lives for certain assets.

## Interest expense

Interest expense increased to approximately $\$ 20.0$ million for the quarter ended June 30,2015 , compared to approximately $\$ 19.3$ million for the same period in 2014. On April 17, 2015, the Company's 2011 Credit Agreement, as amended, and TV One notes were paid off, with balances of $\$ 367.6$ million and $\$ 119.0$ million, respectively. The payoffs were achieved by the Company entering into its new $\$ 350.0$ million 2015 Credit Facility, issuing the 2022 Notes in an aggregate principal amount of $\$ 350.0$ million and the Comcast Note in the aggregate principal amount of approximately $\$ 11.9$ million.

## Loss on retirement of debt

| Three Months Ended June 30, |  |  |  |  |  |  |  | Increase/(Decrease) |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 5}$ | 7,091 | $\$$ | 2014 |  | $\$$ | 7,091 | $100.0 \%$ |

The loss on retirement of debt of approximately $\$ 7.1$ million for the three months ended June 30,2015 , was due to the retirement of the 2011 Credit Agreement, as amended, and payoff of the TV One Notes during the first quarter. This amount included a write-off of approximately $\$ 1.3$ million of previously capitalized debt financing costs, a write-off of $\$ 844,000$ of original issue discount associated with the 2011 Credit Agreement, as amended, as well as $\$ 827,000$ associated with the call premium to refinance the credit facility, $\$ 106,000$ associated with the consent to the existing holders of the 2020 Notes and approximately $\$ 4.0$ million of costs associated with the financing transactions.

## Provision for income taxes

| Three Months Ended June 30, |  |  |  |  | Increase/(Decrease) |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2015 | 9,942 | $\$$ | 8,605 | $\$$ | 1,337 |

For the three months ended June 30, 2015, and 2014 the provision for income taxes was approximately $\$ 9.9$ million and $\$ 8.6$ million, respectively, primarily attributable to the deferred tax liability ("DTL") for indefinite-lived intangible assets. The Comcast Buyout and the tax related effects resulted in an increase in the indefinite-lived intangible assets and the associated DTL.

## Noncontrolling interests in income of subsidiaries

| Three Months Ended June 30, |  |  |  | Increase/(Decrease) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |
| \$ | 365 | \$ | 5,408 | \$ | $(5,043)$ | (93.3)\% |

The decrease in noncontrolling interests in income of subsidiaries is due primarily to a change in ownership percentage of TV One.

## Other Data

## Station operating income

Station operating income increased to approximately $\$ 46.9$ million for the three months ended June 30, 2015, compared to approximately $\$ 41.0$ million for the comparable period in 2014 , an increase of $\$ 5.9$ million or $14.3 \%$. This increase was primarily due to higher Reach Media and our cable segment operating income for the three months ended June 30, 2015, versus the same period in 2014. Reach Media generated approximately $\$ 3.2$ million of station operating income during the quarter ended June 30,2015 , compared to $\$ 875,000$ during the quarter ended June 30 , 2014 , primarily due to the timing of the "Tom Joyner Fantastic Voyage" held during the second quarter of 2015, as well as a decrease in talent compensation as a result of renegotiated contracts. Our cable segment generated approximately $\$ 23.5$ million of station operating income during the quarter ended June 30 , 2015 , compared to $\$ 16.4$ million during the quarter ended June 30,2014 , with the increase due primarily to greater advertising demand and an increase in subscriber rates for certain affiliates. These increases in station operating income were partially offset by a decrease in radio broadcasting segment station operating income. The decrease from the radio broadcasting segment was due primarily to continued declines in net revenue in our four largest markets.

## Station operating income margin

Station operating income margin increased to $39.2 \%$ for the three months ended June 30,2015 , from $37.9 \%$ for the comparable period in 2014 . The margin increase was primarily attributable to Reach Media's higher station operating margin of $17.3 \%$ for the three months ended June 30 , 2015, compared to $8.7 \%$ for the three months ended June 30, 2014, primarily due to the timing of the "Tom Joyner Fantastic Voyage" held during the second quarter of 2015 , as well as a decrease in talent compensation as a result of renegotiated contracts. The margin increase was also attributable to the cable television segment's higher station operating margin of $51.6 \%$ for the three months ended June 30,2015 , compared to $35.0 \%$ for the three months ended June 30 , 2014 , primarily due to increased revenue, as noted above. These increases were partially offset by our radio broadcasting segment lower station operating income noted above.

|  |  |  | 219,486 | $\$$ | 6,098 | $2.8 \%$ |  |

During the six months ended June 30, 2015, we recognized approximately $\$ 225.6$ million in net revenue compared to approximately $\$ 219.5$ million during the same period in 2014 . These amounts are net of agency and outside sales representative commissions, which were approximately $\$ 13.6$ million during the six months ended 2015 , compared to approximately $\$ 15.3$ million during the same period in 2014 . Net revenues from our radio broadcasting segment for the six months ended June 30,2015 , decreased $6.8 \%$ from the same period in 2014 , primarily to continued declines in net revenue in our four largest markets. Based on reports prepared by Miller Kaplan, the markets we operate in decreased $2.9 \%$ in total revenues. We experienced net revenue growth in certain markets (most significantly in our Dallas, Philadelphia and St. Louis markets); however, this growth was offset by declines in other markets (with our Atlanta, Baltimore, Columbus, Houston, Indianapolis and Washington, DC markets experiencing the most significant net revenue declines). Reach Media's net revenues increased $8.2 \%$ in the six months ended June 30, 2015, compared to the same period in 2014, due primarily to better performance at the annual promotional event. We recognized approximately $\$ 91.3$ million and $\$ 77.7$ million of revenue from our cable television segment during the six months ended June 30, 2015, and 2014, respectively, due primarily from higher advertising demand and an increase in rates for certain affiliates. Net revenue for our internet business decreased $16.9 \%$ for the six months ended June 30,2015 , compared to the same period in 2014, due to decreases in alliance revenue.

## Operating Expenses

## Programming and technical, excluding stock-based compensation

| Six Months Ended June 30, |  |  |  |  |  |  | Increase/(Decrease) |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Programming and technical expenses include expenses associated with on-air talent and the management and maintenance of the systems, tower facilities, and studios used in the creation, distribution and broadcast of programming content on our radio stations. Programming and technical expenses for radio also include expenses associated with our programming research activities and music royalties. For our internet business, programming and technical expenses include software product design, post-application software development and maintenance, database and server support costs, the help desk function, data center expenses connected with ISP hosting services and other internet content delivery expenses. For our cable television segment, programming and technical expenses include expenses associated with the technical, programming, production, and content management. The decreased expense for the six months ended June 30, 2015, compared to the same period in 2014 is primarily due to our radio broadcasting and Reach Media segments, which partially offsets an increase in expenses from our cable television segment. The decrease in expenses from our radio broadcasting segment is primarily due to lower employee compensation costs associated with format changes in our Houston market. The decrease in programming and technical expenses from our Reach Media segment is due to a decrease in talent compensation as a result of renegotiated contracts of approximately $\$ 3.9$ million. Approximately $\$ 32.2$ million of our consolidated programming and technical operating expenses were incurred by TV One for the six months ended June 30 , 2015 , versus approximately $\$ 29.7$ million for the same period in 2014 . Of this total amount incurred by TV One, approximately $\$ 25.7$ million and $\$ 24.6$ million, respectively, relates specifically to program content expense. The increase in program content expense was a result of certain series and movie premieres for which there were no similar events in the comparable periods in 2014. In addition, TV One incurred higher research costs during the six months ended June 30,2015 compared to the same period in 2014.

Selling, general and administrative expenses include expenses associated with our sales departments, offices and facilities and personnel (outside of our corporate headquarters), marketing and promotional expenses, special events and sponsorships and back office expenses. Expenses to secure ratings data for our radio stations and visitors' data for our websites are also included in selling, general and administrative expenses. In addition, selling, general and administrative expenses for the radio broadcasting segment and internet segment include expenses related to the advertising traffic (scheduling and insertion) functions. Selling, general and administrative expenses also include membership traffic acquisition costs for our online business. The majority of the increase in selling, general and administrative expenses is from our Reach Media segment's annual promotional event, the "Tom Joyner Fantastic Voyage." That event generated expenses of approximately $\$ 7.5$ million during the second quarter of 2015 and generated expenses of approximately $\$ 5.8$ million during the first quarter of 2014.

In addition, there were higher management employee compensation costs and allowance for doubtful accounts at our cable television segment.

## Stock-based compensation

| Six Months Ended June 30, |  |  |  | Increase/(Decrease) |  |  |

Also effective October 6, 2014, the Compensation Committee awarded 410,000 shares of restricted stock to certain employees pursuant to the Company's LTIP. Depreciation and amortization

| 2015 |  | 2014 |  |  |  |  |
| \$ | 18,068 | \$ | 18,506 | \$ | (438) | (2.4)\% |

The decrease in depreciation and amortization expense for the six months ended June 30, 2015, was due to the completion of amortization for certain intangible assets and the completion of useful lives for certain assets.

## Interest expense

| Six Months Ended June 30, |  |  |  |  |  |  | Increase/(Decrease) |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $\$$ | $\mathbf{2 0 1 5}$ | 39,264 | $\$$ | 2014 |  |  |  | $(1,854)$ |

Interest expense decreased to approximately $\$ 39.3$ million for the six months ended June 30,2015 , compared to approximately $\$ 41.1$ million for the same period in 2014. On April 17, 2015, the Company's 2011 Credit Agreement, as amended, and TV One notes were paid off, with balances of $\$ 367.6$ million and $\$ 119.0$ million, respectively. The payoffs were achieved by the Company entering into its new $\$ 350.0$ million 2015 Credit Facility, issuing the 2022 Notes in an aggregate principal amount of $\$ 350.0$ million and the Comcast Note in the aggregate principal amount of approximately $\$ 11.9$ million.

## Loss on retirement of debt

| Six Months Ended June 30, |  |  |  |  |  |  | Increase/(Decrease) |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 5}$ | 7,091 | $\$$ | 2014 | 5,679 | $\$$ | 1,412 | $24.9 \%$ |

The loss on retirement of debt of approximately $\$ 7.1$ million for the six months ended June 30,2015 , was due to the retirement of the 2011 Credit Agreement and payoff of the TV One Notes during the first quarter. This amount included a write-off of approximately $\$ 1.3$ million of previously capitalized debt financing costs, a write-off of $\$ 844,000$ of original issue discount associated with the 2011 Credit Agreement, as amended, as well as $\$ 827,000$ associated with the call premium to refinance the credit facility, $\$ 106,000$ associated with the consent to the existing holders of the 2020 Notes and approximately $\$ 4.0$ million of costs associated with the financing transactions. The loss on retirement of debt of approximately $\$ 5.7$ million for the six months ended June 30, 2014, was due to the retirement of the 2016 Notes during the first quarter. This amount included a write-off of approximately $\$ 4.1$ million of previously capitalized debt financing costs and approximately $\$ 1.6$ million associated with the net premium paid to retire the 2016 Notes.

## Provision for income taxes

For the six months ended June 30, 2015 and 2014, the provision for income taxes was approximately $\$ 18.5$ million and $\$ 17.2$ million, respectively, primarily related to the DTL for indefinite-lived intangible assets. The Comcast Buyout and tax related effects resulted in an increase in the indefinite-lived intangible assets and the associated DTL.

Noncontrolling interests in income of subsidiaries

The decrease in noncontrolling interests in income of subsidiaries was due primarily to a change in ownership percentage of TV One.

## Other Data

## Station operating income

Station operating income increased to approximately $\$ 83.8$ million for the six months ended June 30 , 2015, compared to approximately $\$ 76.2$ million for the comparable period in 2014, an increase of $\$ 7.6$ million or $9.9 \%$. This increase was due to higher station operating income at our Reach Media and cable television segments, partially offset by a decrease of station operating income at our radio broadcasting segment. Reach Media generated approximately $\$ 6.4$ million of station operating income during the six months ended June 30,2015 , compared to $\$ 2.3$ million during the six months ended June 30,2014 , with the increase due primarily to lower programming and technical expenses associated with a decrease in talent compensation as a result of renegotiated contracts. TV One generated approximately $\$ 42.4$ million of station operating income during the six months ended June 30 , 2015 , compared to $\$ 31.8$ million during the six months ended June 30,2014 , with the increase due primarily to increased advertising and affiliate revenues. The radio broadcasting segment generated approximately $\$ 34.4$ million of station operating income during the six months ended June 30 , 2015, compared to $\$ 40.7$ million during the six months ended June 30,2014 , with the decrease due primarily to net revenue declines at four of our largest markets.

## Station operating income margin

Station operating income margin increased to $37.2 \%$ for the six months ended June 30,2015 , from $34.7 \%$ for the comparable period in 2014 . The margin increase was primarily attributable to TV One's and Reach Media's greater operating income noted above.

## LIQUIDITY AND CAPITAL RESOURCES

Our primary source of liquidity is cash provided by operations and, to the extent necessary, borrowings available under our senior credit facility and other debt or equity financing.

## 2022 Notes and Current Credit Facilities

On April 17, 2015, the Company closed its private offering of $\$ 350.0$ million aggregate principal amount of $7.375 \%$ senior secured notes due 2022 (the " 2022 Notes"). The 2022 Notes were offered at an original issue price of $100.0 \%$ plus accrued interest from April 17 , 2015 and will mature on April 15 , 2022. Interest on the 2022 Notes accrues at the rate of $7.375 \%$ per annum and is payable semiannually in arrears on April 15 and October 15 , commencing on October 15, 2015. The 2022 Notes are guaranteed, jointly and severally, on a senior secured basis by the Company's existing and future domestic subsidiaries, including TV One, that guarantee any of its new $\$ 350.0$ million senior secured credit facility (the " 2015 Credit Facility") entered into concurrently with the closing of the Notes.

The 2015 Credit Facility matures on December 31, 2018. At the Company's election, the interest rate on borrowings under the 2015 Credit Facility is based on either (i) the then applicable base rate plus $3.5 \%$ (as defined in the 2015 Credit Facility) as, for any day, a rate per annum (rounded upward, if necessary, to the next $1 / 100$ th of $1 \%$ ) equal to the greater of (a) the prime rate published in the Wall Street Journal, (b) $1 / 2$ of $1 \%$ in excess rate of the overnight Federal Funds Rate at any given time and (c) the one-month LIBOR rate commencing on such day plus $1.00 \%$ ), or (ii) the then applicable LIBOR rate plus $4.5 \%$ (as defined in the 2015 Credit Facility). The average interest rate was $4.78 \%$ for the three months ended June 30 , 2015. Quarterly installments of $0.25 \%$, or $\$ 875,000$, of the principal balance on the term loan are payable on the last day of each March, June, September and December beginning on September 30, 2015.

In connection with the closing of the financing transactions, the Company and the guarantor parties thereto entered into a Fourth Supplemental Indenture to the indenture governing the 2020 Notes. Pursuant to this Fourth Supplemental Indenture, TV One, which previously did not guarantee the 2020 Notes, became a guarantor under the 2020 Notes indentures. In addition, the provisions contained in the Third Supplemental Indenture previously disclosed in the Company's Current Report on Form 8-K, filed April 1, 2015, which permitted the Company to complete the transactions became operative. The closing of the financing transactions caused a "Triggering Event" (as defined in the 2020 Notes Indenture) under the 2020 Notes Indenture and, as a result, the 2020 Notes became an unsecured obligation of the Company and the subsidiary guarantors and rank equal in right of payment with the Company's other senior indebtedness.

The Company used the net proceeds from the 2022 Notes, along with term loan borrowings under the 2015 Credit Facility, to refinance its existing senior secured credit facility, refinance $\$ 119.0$ million in outstanding indebtedness of TV One and TV One Capital Corp. ("Capital Corp."), finance the previously announced purchase of the membership interests of an affiliate of Comcast Corporation ("Comcast") in TV One (the "Comcast Buyout") and pay the related accrued interest, premiums, fees and expenses associated therewith.

The 2015 Credit Facility contains affirmative and negative covenants that the Company is required to comply with, including:
(a) maintaining an interest coverage ratio of no less than:
$\cdot 1.25$ to 1.00 on June 30,2015 and the last day of each fiscal quarter thereafter.
(b) maintaining a senior leverage ratio of no greater than:

- 5.85 to 1.00 on June 30,2015 and the last day of each fiscal quarter thereafter.
(c) limitations on:
-liens;
- sale of assets;
-payment of dividends; and
-mergers.

As of June 30, 2015, ratios calculated in accordance with the 2015 Credit Facility were as follows:

|  | $\begin{gathered} \text { As of } \\ \text { June } \\ \mathbf{3 0 , 2 0 1 5} \\ \hline \end{gathered}$ |  | Covenant Limit | Excess Coverage |
| :---: | :---: | :---: | :---: | :---: |
| Pro Forma Last Twelve Months Covenant EBITDA (In millions) | \$ | 137.5 |  |  |
| Pro Forma Last Twelve Months Interest Expense (In millions) | \$ | 74.7 |  |  |
| Senior Debt (In millions) | \$ | 641.0 |  |  |
| Interest Coverage |  |  |  |  |
| Covenant EBITDA / Interest Expense |  | 1.84x | 1.25 x | 0.59x |
| Senior Leverage |  |  |  |  |
| Senior Secured Debt / Covenant EBITDA |  | 4.66x | 5.85x | 1.19 x |
| EBITDA - Earnings before interest, taxes, depreciation and amortization |  |  |  |  |
| Covenant EBITDA - EBITDA adjusted for certain other adjustments, as defined in the 2015 Credit Facility |  |  |  |  |

As of June 30, 2015, the Company was in compliance with all of its financial covenants under the 2015 Credit Facility.
As of June 30, 2015, the Company had outstanding approximately $\$ 350.0$ million on its 2015 Credit Facility. The original issue discount is being reflected as an adjustment to the carrying amount of the debt obligation and amortized to interest expense over the term of the credit facility. The Company has early adopted ASU 2015-03 during the three months ended June 30, 2015, resulting in approximately $\$ 8.3$ million of net debt issuance costs presented as a direct deduction to the Company's long-term debt in the consolidated balance sheet as of June 30, 2015. The retrospective application of ASU 2015-03 decreased other intangible assets and long-term debt by approximately $\$ 6.9$ million in the consolidated balance sheet as of December $31,2014$.

## 2011 Credit Facilities

On March 31, 2011, the Company entered into a senior secured credit facility (the " 2011 Credit Agreement") with a syndicate of banks, and simultaneously borrowed $\$ 386.0$ million to retire all outstanding obligations under the Company's previous amended and restated credit agreement and to fund our obligation with respect to a capital call initiated by TV One. The total amount available under the 2011 Credit Agreement was $\$ 411.0$ million, initially consisting of a $\$ 386.0$ million term loan facility that matured on March 31, 2016, and a $\$ 25.0$ million revolving loan facility that matured on March 31, 2015. Borrowings under the credit facilities were subject to compliance with certain covenants including, but not limited to, certain financial covenants. Proceeds from the credit facilities could be used for working capital, capital expenditures made in the ordinary course of business, its common stock repurchase program, permitted direct and indirect investments and other lawful corporate purposes. On December 19, 2012, the Company entered into an amendment to the 2011 Credit Agreement (the "December 2012 Amendment"). The December 2012 Amendment: (i) modified financial covenant levels with respect to the Company's total-leverage, secured-leverage, and interest-coverage ratios; (ii) increased the amount of cash the Company can net for determination of its net indebtedness tests; and (iii) extended the time for certain of the 2011 Credit Agreement's call premium while reducing the time for its later and lower premium.

On January 21, 2015, the Company entered into a second amendment to the 2011 Credit Agreement (the "Second Amendment") with its lenders. The provisions of the 2011 Credit Agreement relating to the call premium were revised by the Second Amendment to extend the call protection from April 1 , 2015 until maturity. The Second Amendment provided a call premium of $101.5 \%$ if the 2011 Credit Agreement were refinanced with proceeds from a notes offering and $100.5 \%$ if the 2011 Credit Agreement was refinanced with proceeds from any other repayment, including proceeds from a new term loan. The call premium was payable at the earlier of any refinancing or final maturity.

The Second Amendment also excluded any "going concern" or qualified audit opinion solely as a result of the upcoming revolver or term loan maturities from the Event of Default provisions of the 2011 Credit Agreement. Next, the Second Amendment provided for the ability to "amend and extend" both the term loan and the revolving credit facility provided for by the 2011 Credit Agreement and added a $\$ 2$ million lien basket for letters of credit not issued under the 2011 Credit Agreement.

Finally, beginning with the quarter ending March 31, 2015, the Second Amendment implemented certain changes to the financial covenants the Company was required to comply with in order to remain in compliance with the terms of the 2011 Credit Agreement. As noted above, the Company used the net proceeds from the private offering, along with term loan borrowings under the 2015 Credit Facility, to refinance its 2011 Credit Agreement, as amended. The Company recorded a loss on retirement of debt of approximately $\$ 7.1$ million for the three months ended June 30 , 2015 . This amount included a write-off of approximately $\$ 1.3$ million of previously capitalized debt financing costs, a write-off of $\$ 844,000$ of original issue discount associated with the 2011 Credit Agreement, as amended, as well as $\$ 827,000$ associated with the call premium to refinance the credit facility, $\$ 106,000$ associated with the consent to the existing holders of the 2020 Notes and approximately $\$ 4.0$ million of costs associated with the financing transactions.

The 2011 Credit Agreement, as amended on December 19, 2012 and January 21, 2015, contained affirmative and negative covenants that the Company was required to comply with. In accordance with the 2011 Credit Agreement, as amended, the calculations for the ratios did not include the operating results or related debt of TV One, but rather included our proportionate share of cash dividends received from TV One for periods presented.

Under the terms of the 2011 Credit Agreement, as amended, interest on base rate loans was payable quarterly and interest on LIBOR loans was payable monthly or quarterly. The base rate was equal to the greater of: (i) the prime rate; (ii) the Federal Funds Effective Rate plus $0.50 \%$; or (iii) the LIBOR Rate for a one-month period plus $1.00 \%$. The applicable margin on the 2011 Credit Agreement was between (i) $4.50 \%$ and $5.50 \%$ on the revolving portion of the facility and (ii) $5.00 \%$ (with a base rate floor of $2.5 \%$ per annum) and $6.00 \%$ (with a LIBOR floor of $1.5 \%$ per annum) on the term portion of the facility. The average interest rate was $7.50 \%$ for the first quarter of 2015 prior to the refinancing. Quarterly installments of $0.25 \%$, or $\$ 957,000$, of the principal balance on the term loan were payable on the last day of each March, June, September and December.

On February 24, 2015, the Company entered into a letter of credit reimbursement and security agreement. As of June 30, 2015, the Company had letters of credit totaling $\$ 1.0$ million under the agreement. Letters of credit issued under the agreement are required to be collateralized with cash.

During the three and six months ended June 30,2015 , the Company repaid approximately $\$ 367.6$ million and $\$ 368.5$ million, respectively, under the 2011 Credit Agreement, as amended. During the three and six months ended June 30, 2014, the Company repaid approximately $\$ 2.0$ million and $\$ 3.0$ million, respectively, under the 2011 Credit Agreement, as amended. The original issue discount was being reflected as an adjustment to the carrying amount of the debt obligation and amortized to interest expense over the term of the credit facility. According to the terms of the Credit Agreement, as amended, the Company did not make an excess cash flow payment in April 2015. According to the terms of the Credit Agreement, as amended, the Company made an excess cash flow payment of approximately \$1.1 million during April 2014.

During the six months ended June 30, 2014, the Company capitalized approximately $\$ 4.5$ million of costs associated with our 2020 Notes.

## Credit Rating Agencies

Our corporate credit ratings by Standard \& Poor's Rating Services and Moody's Investors Service are speculative-grade and have been downgraded and upgraded at various times during the last several years. Any reductions in our credit ratings could increase our borrowing costs, reduce the availability of financing to us or increase our cost of doing business or otherwise negatively impact our business operations.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our significant accounting policies are described in Note 1 - Organization and Summary of Significant Accounting Policies of the consolidated financial statements in our Annual Report on Form $10-\mathrm{K}$. We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. In Management's Discussion and Analysis contained in our Annual Report on Form 10-K for the year ended December 31, 2014, we summarized the policies and estimates that we believe to be most critical in understanding the judgments involved in preparing our financial statements and the uncertainties that could affect our results of operations, financial condition and cash flows. There have been no material changes to our existing accounting policies or estimates since we filed our Annual Report on Form 10-K for the year ended December 31, 2014.

## Goodwill and Radio Broadcasting Licenses

## Impairment Testing

We have made several radio station acquisitions in the past for which a significant portion of the purchase price was allocated to goodwill and radio broadcasting licenses. Goodwill exists whenever the purchase price exceeds the fair value of tangible and identifiable intangible net assets acquired in business combinations. As of June 30, 2015, we had approximately $\$ 666.8$ million in broadcast licenses and $\$ 275.9$ million in goodwill, which totaled $\$ 942.7$ million, and represented approximately $68.1 \%$ of our total assets. Therefore, we believe estimating the fair value of goodwill and radio broadcasting licenses is a critical accounting estimate because of the significance of their carrying values in relation to our total assets. We did not record any impairment charges for the three or six months ended June 30, 2015 or 2014.

We test for impairment annually across all reporting units, or when events or changes in circumstances or other conditions suggest impairment may have occurred in any given reporting unit. Our annual impairment testing is performed as of October 1 of each year. Impairment exists when the carrying value of these assets exceeds its respective fair value. When the carrying value exceeds fair value, an impairment amount is charged to operations for the excess.

## Valuation of Broadcasting Licenses

During the second quarter of 2015 , the total market revenue growth for certain markets in which we operate was below that used in our 2014 annual impairment testing. We deemed that to be an impairment indicator that warranted interim impairment testing of certain markets' radio broadcasting licenses, which we performed as of June 30,2015 . There was no impairment identified as part of this testing. During the first and second quarters of 2014 , the total market revenue growth for certain markets in which we operate was below that used in our 2013 annual impairment testing. We deemed that to be an impairment indicator that warranted interim impairment testing of certain markets' radio broadcasting licenses, which we performed as of March 31 , 2014, and June 30, 2014. There was no impairment identified as part of this testing. There were no impairment indicators present for any of our other radio broadcasting licenses. Below are some of the key assumptions used in the income approach model for estimating broadcasting licenses fair values for the annual impairment assessment as of October 1, 2014, and interim impairment assessments for the quarters ended June 30, 2015 and 2014.

(a) Reflects changes only to the key assumptions used in the interim testing for certain units of accounting.

## Valuation of Goodwill

During the second quarter of 2015 , we identified an impairment indicator at one of our radio markets, and as such, we performed an interim analysis for certain radio market goodwill as of June 30,2015 . Similarly, during the first and second quarters of 2014, we identified impairment indicators at certain of our radio markets, and, as such, we performed an interim impairment analysis for certain radio market reporting units as of June 30, 2014 and March $31,2014$. No goodwill impairment was identified during the three or six months ended June 30, 2015 and 2014. Below are some of the key assumptions used in the income approach model for estimating reporting unit fair values for the annual impairment assessment as of October 1, 2014, and interim impairment assessments for the quarters ended June 30, 2015 and 2014.

| Goodwill (Radio Market Reporting Units) | $\begin{aligned} & \text { June } 30, \\ & 2015 \text { (a) } \end{aligned}$ |  | $\begin{gathered} \text { October 1, } \\ 2014 \\ \hline \end{gathered}$ |  | $\begin{aligned} & \text { June } 30, \\ & 2014 \text { (a) } \\ & \hline \end{aligned}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Pre-tax impairment charge (in millions) | \$ | - | \$ |  | \$ | - |
| Discount Rate |  | 9.5\% |  | 9.5\% |  | 9.5\% |
| Year 1 Market Revenue Growth Rate Range |  | 0.7\% |  | 0.3\%-1.0\% |  | 1.3\%-1.5\% |
| Long-term Market Revenue Growth Rate Range (Years 6 - 10) |  | 2.0\% |  | 1.0\% - 2.0\% |  | 1.5\%-2.0\% |
| Mature Market Share Range |  | 7.4\% |  | 7.2\%-19.5\% |  | 7.8\%-9.5\% |
| Operating Profit Margin Range |  | 37.0\% |  | 26.4\%-52.2\% |  | 27.9\%-34.8\% |

(a) Reflects changes only to the key assumptions used in the interim testing for certain units of accounting.

As part of our annual testing, when arriving at the estimated fair values for radio broadcasting licenses and goodwill, we also performed an analysis by comparing our overall average implied multiple based on our cash flow projections and fair values to recently completed sales transactions, and by comparing our fair value estimates to the market capitalization of the Company. The results of these comparisons confirmed that the fair value estimates resulting from our annual assessment for 2014 were reasonable.

Several of the licenses in our units of accounting have limited excess of fair values over their respective carrying values. Should our estimates, assumptions, or events or circumstances for any upcoming valuations worsen in the units with no or limited fair value cushion, additional license impairments may be needed in the future.

## RECENT ACCOUNTING PRONOUNCEMENTS

In April 2014, the Financial Accounting Standards Board ("FASB') issued Accounting Standards Update ("ASU") 2014-08, " Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360)—Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). ASU 2014-08 changes the requirements for reporting discontinued operations. Under ASU 2014-08, only disposals representing a strategic shift in operations and having a major effect on the entity's operations and financial results should be presented as discontinued operations. Additionally, ASU 2014-08 requires expanded disclosures about discontinued operations. ASU 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014, with early adoption permitted for disposals that have not been reported in financial statements previously issued. The Company will apply the provisions of ASU 2014-08 to future reporting of disposals.

In May 2014, the FASB issued ASU 2014-09, " Revenue from Contracts with Customers," ("ASU 2014-09") which supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605, "Revenue Recognition" and most industry-specific guidance throughout the codification. The standard requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On July 9, 2015, the FASB voted and approved to defer the effective date of ASU 2014-09 by one year. As a result, ASU 2014-09 will be effective for fiscal years beginning after December 15, 2017, with early adoption permitted but not prior to the original effective date of annual periods beginning after December 15, 2016. The Company has not yet completed its assessment of the impact of the new standard, including possible transition alternatives, on its financial statements.

In April 2015, the FASB issued ASU 2015-03, "Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"). ASU 2015-03 aims to simplify the presentation of debt issuance costs by requiring debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Currently, debt issuance costs are presented as a deferred charge under GAAP. ASU 2015-03 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Company has early adopted ASU 2015-03 during the three months ended June 30 , 2015 , resulting in approximately $\$ 8.3$ million of net debt issuance costs presented as a direct deduction to the Company's long-term debt in the consolidated balance sheet as of June 30, 2015. The retrospective application of ASU 2015-03 decreased other intangible assets and long-term debt by approximately $\$ 6.9$ million in the consolidated balance sheet as of December 31, 2014.

Our disclosure controls and procedures are designed to provide a reasonable level of assurance of reaching our desired disclosure controls objectives. Our management, including our CEO and CFO, has concluded that our disclosure controls and procedures are effective in reaching that level of reasonable assurance.
