ITEM 1.01. Entry Into Material Definitive Agreement

On April 5, 2010, Radio One issued a corrected press release setting forth the results for its fourth quarter ended December 31, 2009 (the "Corrected Press Release"). In the Corrected Press Release, as well as in the original press release, Radio One noted that subsequent to December 31, 2009, it had determined that certain of its subsidiaries identified as guarantors its financial statements did not have requisite guarantees filed with the trustee as required under the terms of the relevant indentures (the "Non-Joinder of Certain Subsidiaries"). The Non-Joinder of Certain Subsidiaries caused a non-monetary, technical default under the terms of the indentures at December 31, 2009, causing a non-monetary, technical cross-default at December 31, 2009 under the terms of the Company's Credit Agreement dated as of June 13, 2005 (the "Credit Agreement"). Radio One has since joined the relevant subsidiaries as guarantors under the indentures (the "Joinder"). Further, on March 30, 2010, Radio One entered into a third amendment (the "Third Amendment") to the Credit Agreement. The Third Amendment provided for, among other things: (i) a \$100.0 million revolver commitment reduction under the bank facilities; (ii) a 1.0% floor with respect to any loan bearing interest at a rate determined by reference to the adjusted London Interbank Offered Rate ("LIBOR"); (iii) certain additional collateral requirements; (iv) certain limitations on the use of proceeds from the revolving loan commitments; (v) the addition of Interactive One, LLC as a guarantor of the loans under the Credit Agreement and under the notes governed by the Company's 2001 and 2005 senior subordinated debt documents; (vi) the waiver of the technical cross-defaults that existed as of December 31, 2009 and through the date of the amendment arising due to the Non-Joinder of Certain Subsidiaries; and (vii) the payment of certain fees and expenses of the lenders in connection with their diligence in connection with the amendment. With the Joinder and waivers included

A copy of the Third Amendment and the Joinders are included as exhibits to the Company's Form 10K for the year ended December 31, 2009.

ITEM 2.02. Results of Operations and Financial Condition.

On April 5, 2010, Radio One, Inc. issued a corrected press release setting forth the results for its fourth quarter ended December 31, 2009. A copy of the corrected press release is attached as Exhibit 99.1.

The corrected press release replaces in its entirety that press release dated March 30, 2010. The correct press release differs from the March 30, 2010 press release in that the two line items have changed on selected balance sheet data of the press release. Total liabilities were approximately \$787.5 million, a decrease of approximately \$2.8 million from the \$790.3 million originally reported while total stockholders' equity was approximately \$242.1 million, an increase of approximately \$2.8 million from the \$239.3 million originally reported. No other item or number has changed since the original press release.

NEWS RELEASE

April 5, 2010 FOR IMMEDIATE RELEASE Washington, DC

CORRECTING and REPLACING RADIO ONE, INC. REPORTS FOURTH QUARTER RESULTS

WASHINGTON, April 5, 2010 /PRNewswire via COMTEX/ -- Please replace the press release dated March 30, 2010 with the following corrected version due to a change in two items contained in the selected balance sheet data of the press release. Total liabilities were approximately \$787.5 million, a decrease of approximately \$2.8 million from the \$790.3 million originally reported while total stockholders' equity was approximately \$242.1 million, an increase of approximately \$2.8 million from the \$239.3 million originally reported. No other item or number has changed since the original press release.

The corrected release reads:

RADIO ONE, INC. REPORTS FOURTH QUARTER RESULTS

WASHINGTON, March 30, 2010 /PRNewswire via COMTEX/ --Radio One, Inc. (Nasdaq: ROIAK; ROIA) today reported its results for the quarter ended December 31, 2009. Net revenue was approximately \$67.3 million, a decrease of 8.9% from the same period in 2008. Station operating income¹ was approximately \$26.3 million, a decrease of 16.2% from the same period in 2008. The Company recorded a non-cash impairment charge against its FCC licenses, goodwill and other intangible assets of approximately \$17.0 million, which led to a net operating loss of approximately \$4.6 million. Net loss was approximately \$14.9 million or a loss of \$0.28 per basic share, an increase from the reported net loss of approximately \$6.3 million or \$0.07 per basic share for the same period in 2008.

Alfred C. Liggins, III, Radio One's CEO and President stated, "Our fourth quarter again demonstrated the sequential improvement that we had hoped for in our core radio business. Adjusting for 2008 political activity, our fourth quarter core radio revenues were down 4.2%. Looking ahead to first quarter, we are currently pacing up mid-single digits, with the recovery most apparent in our larger markets, where national business is performing strongly.

Our investment in TV One continues to perform well, and we were proud to surpass the 50 million homes mark as measured by Neilson in February 2010. We expect TV One to continue its robust cash flow growth over the next few years.

Reach Media has made the transition to selling inventory inside the Tom Joyner Morning Show with its internal sales force, and Citadel's Radio Networks group continues to sell the out of show inventory. I expect it will take a few months for this new arrangement to settle in, but I believe the long-term effect will be to strengthen pricing and improve margins.

Our digital strategy is now fully operational, and our traffic growth exceeded our expectations. According to comScore, as of February 2010, our websites now garner 3.3 million unique monthly visitors, and 260 million monthly page views. Our emphasis has now changed towards improving our sales effort and monetizing the traffic growth more effectively.

Overall, I am pleased with both the strategic and operational progress that we made in 2009 in the face of an incredibly challenging marketplace."

PAGE 5 -- RADIO ONE, INC. REPORTS FOURTH QUARTER RESULTS

Net revenue decreased to approximately \$67.3 million for the quarter ended December 31, 2009, from approximately \$73.9 million for the same period in 2008, a decrease of 8.9%. With a decline of 9.4% during the fourth quarter, the radio marketplaces in which we operate saw the smallest sequential decline for all of 2009, and our stations in those markets again delivered outperformance, this time by 160 basis points. Our radio performance for the quarter was adversely impacted by a significant revenue decline in our Washington, DC market. Reach Media also experienced a revenue decline as a result of agreeing to accept \$2.0 million less in guaranteed revenue from Citadel Broadcasting Corporation, its exclusive sales representative. The minimal and slow recovery in the economy and advertising industry drove declines in some of our other ra dio markets and in our online business.

Operating expenses, excluding depreciation and amortization, stock-based compensation and impairment of long-lived assets increased to approximately \$49.4 million from approximately \$47.0 million for the quarters ended December 31, 2009 and 2008, respectively, an increase of 5.0%. While our cost-cutting initiatives continued to pay off, with specific savings in compensation expense from employee layoffs, salary cuts, commissions and vacation benefits and from discretionary spending reductions, the increase in operating expenses resulted from recording certain annual employee bonuses in the fourth quarter of 2009 instead of recording the bonuses throughout the year.

Stock-based compensation decreased to \$269,000 for the quarter ended December 31, 2009, compared to \$404,000 for the same period in 2008, a decline of 33.4%. Stock-based compensation requires measurement of compensation costs for all stock-based awards at fair value on date of grant and recognition of compensation over the service period for awards expected to vest. The decrease in stock-based compensation was due primarily to the vesting completion, forfeiture and cancellation of certain stock option and restricted stock grants.

Depreciation and amortization expense increased to approximately \$5.2 million compared to approximately \$5.0 million for the quarters ended December 31, 2009 and 2008, respectively, an increase of 3.3%. The increase is attributable to the depreciation and amortization of additional technology asset additions and web development for our online business.

Impairment of long-lived assets for the quarter ended December 31, 2009 decreased to approximately \$17.0 million, compared to approximately \$85.3 million for the same period in 2008, a decline of 80.1%. The impairment charges are a result of our annual and year end impairment testing, and reflect a non-cash charge recorded mostly for the impairment of radio broadcasting licenses and to a lesser extent, goodwill and other intangibles assets. The impairment charges occurred in nine of our 16 markets, namely Cleveland, Columbus, Dallas, Houston, Indianapolis, Philadelphia, Raleigh-Durham, Richmond and St. Louis.

Interest expense decreased to approximately \$9.4 million for the quarter ended December 31, 2009, from approximately \$13.1 million for the same period in 2008, a decline of 28.7%. The decrease in interest expense for the quarter ended December 31, 2009 was due primarily to more favorable rates and pay downs of outstanding debt on the Company's senior credit facility and due to less interest expense resulting from early redemptions of \$145.0 million of the Company's $8^{7}/_{8}$ % Senior Subordinated Notes due July 2011 throughout fourth quarter 2008.

As there were no early bond redemptions for the quarter ended December 31 2009, there was no gain on retirement of debt to report for the quarter, compared to a gain of approximately \$67.3 million for the same period in 2008. The fourth quarter 2008 gain on retirement of debt was due to the early redemption of \$145.0 million of the Company's $8^{7}/_{8}$ % Senior Subordinated Notes due July 2011 during the quarter, at an average discount of 47.0%. A principal amount of approximately \$101.5 million remained outstanding as of December 31, 2009 for these senior subordinated notes.

PAGE 6 -- RADIO ONE, INC. REPORTS FOURTH QUARTER RESULTS

Equity in income of affiliated company increased to \$358,000 for the quarter ended December 31, 2009, compared to \$267,000 for the same period in 2008, an increase of 34.2%. The amounts are attributable to our share of the increased net income generated by TV One, LLC ("TV One") for the quarters ended December 31, 2009 and 2008, respectively. The Company's share of TV One's income is driven by TV One's current capital structure and the Company's ownership levels in the equity securities of TV One that are currently benefiting from its net income.

Income taxes for the quarter ended December 31, 2009 was a benefit of \$326,000, compared to a benefit of approximately \$4.2 million for the same quarter in 2008. The tax benefit for both fourth quarter 2009 and 2008 relates mostly to the impairment charges for indefinite-lived intangibles recorded in that quarter, which had the impact of reducing the Company's deferred tax liability.

Loss from discontinued operations, net of tax, was \$979,000 for the quarter ended December 31, 2009, compared to income from discontinued operations, net of tax, of \$30,000 for the same period in 2008. We ceased publication of Giant Magazine in December of 2009 and reported its results for current and prior periods in discontinued operations at that time. The loss from discontinued operations, net of tax, for the quarter ended December 31, 2009 is primarily driven by Giant Magazine's financial results, which included a write off of \$416,000 of certain acquisition assets associated with the magazine. The loss from discontinued operations, net of tax, for the quarter ended December 31, 2009 includes a tax benefit of \$1,000, compared to a tax benefit of \$364,000 included in the income from discontinued operations, net of tax, for the fourth quarter of 2008.

Other pertinent financial information includes capital expenditures of approximately \$1.2 million and \$1.2 million for the quarters ended December 31, 2009 and 2008, respectively. In addition, as of December 31, 2009, Radio One had total debt (net of cash balances) of approximately \$633.6 million.

In March 2008, the Company's board of directors authorized a repurchase of shares of the Company's Class A and Class D common stock through December 31, 2009 of up to \$150.0 million, the maximum amount allowable under the Credit Agreement. The amount and timing of such repurchases were based on pricing, general economic and market conditions and the restrictions contained in the agreements governing the Company's credit facilities and subordinated debt and certain other factors. While \$150.0 million is the maximum amount allowable under the Credit Agreement, in 2005 under a prior board authorization, the Company utilized approximately \$78.0 million to repurchase common stock leaving capacity of \$72.0 million under the Credit Agreement. During the quarter ended December 31, 2009, the Company repurchased approximately \$0.0 million shares of Class D common stock for approximately \$9.0 million at an average price of \$1.81. As of December 31, 2009, the Company did not have any capacity available to repurchase stock since the authorization expired by its terms on December 31, 2009.

PAGE 7 -- RADIO ONE, INC. REPORTS FOURTH QUARTER RESULTS

Subsequent to December 31, 2009, we noted that certain of our subsidiaries identified as guarantors in our financial statements did not have requisite guarantees filed with the trustee as required under the terms of the indentures (the "Non-Joinder of Certain Subsidiaries"). The Non-Joinder of Certain Subsidiaries caused a non-monetary, technical default under the terms of the relevant indentures at December 31, 2009, causing a non-monetary, technical cross-default at December 31, 2009 under the terms of our Credit Agreement dated as of June 13, 2005. We have since joined the relevant subsidiaries as guarantors under the relevant indentures (the "Joinder"). Further, on March 30, 2010, we entered into a third amendment (the "Third Amendment") to the Credit Agreement. The Third Amendment provides for, among other things: (i) a \$100.0 million revolver commitment reduction under the bank facilities; (ii) a 1.0% floor with respect to any loan bearing interest at a rate determined by reference to the adjusted LIBOR; (iii) certain additional collateral requirements; (iv) certain limitations on the use of proceeds from the revolving loan commitments; (v) the addition of Interactive One, LLC as a guarantor of the loans under the Credit Agreement and under the notes governed by the Company's 2001 and 2005 senior subordinated debt documents; (vi) the waiver of the technical cross-defaults that existed as of December 31, 2009 and through the date of the amendment arising due to the Non-Joinder of Certain Subsidiaries; and (vii) the payment of certain fees and expenses of the lenders in connection with the amendment. With the Joinder and waivers included in the Third Amendment, we believe we are currently in compliance with all of our debt covenan tts as of the date of the filing of this Form 10-K, and based on current projections, the Company believes it is probable that it will be in compliance with all debt covenants through December 31, 2010.

Supplemental Financial Information:

For comparative purposes, the following more detailed, unaudited and adjusted statements of operations for the three months and year ended December 31, 2009 and 2008 are included. These detailed, unaudited and adjusted statements of operations include certain reclassifications associated with accounting for discontinued operations. These reclassifications had no effect on previously reported net income or loss, or any other previously reported statements of operations, balance sheet or cash flow amounts.

Notes:

¹ "Station operating income" consists of net loss before depreciation and amortization, corporate expenses, stock-based compensation, equity in (income) loss of affiliated company, income taxes, noncontrolling interest in income of subsidiaries, interest expense, impairment of long-lived assets, other expense, gain on retirement of debt, (income) loss from discontinued operations, net of tax, and interest income. Station operating income is not a measure of financial performance under generally accepted accounting principles. Nevertheless we believe station operating performance e of our stations within the various markets because station operating income provides helpful information about our results of operations apart from expenses associated with our physical plant, income taxes, investments, debt financings and retirements, overhead, stock-based compensation, impairment charges, and asset sales. Station operating income is frequently used as one of the bases for comparing businesses in our industry, although our measure of station operating income may not be comparable to similarly titled measures of other companies. Station operating principles, and should not be considered as an alternative to those measurements as an indicator of our performance. A reconciliation of net loss to station operating income has been provided in this release.

2 Certain reclassifications associated with accounting for discontinued operations have been made to prior period balances to conform to the current presentation. These reclassifications had no effect on any other previously reported or consolidated net income or loss or any other statement of operations, balance sheet or cash flow amounts. Where applicable, these financial statements have been identified as "as adjusted."

3 For the quarter ended December 31, 2009 and 2008, Radio One had 52,735,892 and 85,093,359 shares of common stock outstanding on a weighted average basis, diluted for outstanding stock options, respectively.

4 For the year ended December 31, 2009 and 2008, Radio One had 59,465,252 and 94,118,699 shares of common stock outstanding on a weighted average basis, diluted for outstanding stock options, respectively.

⁵ "Adjusted EBITDA" consists of net loss plus (1) depreciation, amortization, income taxes, interest expense, equity in (income) loss of affiliated company, noncontrolling interest in income of subsidiaries, impairment of long-lived assets, stock-based compensation, other expense, (income) loss from discontinued operations, net of tax, less (2) interest income and gain on retirement of debt. Net income before interest income, interest expense, income taxes, depreciation and amortization is commonly referred to in our business as "EBITDA." Adjusted EBITDA and EBITDA are not measures of financial performance under generally accepted accounting principles. We believe Adjusted EBITDA is often a useful measure of a company's operating p erformance and is a significant basis used by our management to measure the operating performance of our business because Adjusted EBITDA excludes charges for depreciation, amortization and interest expense that have resulted from our acquisitions and debt financing, our taxes, impairment charges, as well as our equity in (income) loss of our affiliated company, gain on retirements of debt, and any discontinued operations. Accordingly, we believe that Adjusted EBITDA provides useful information about the operating performance of our business, apart from the expenses associated with our physical plant, capital structure or the results of our affiliated company. Adjusted EBITDA is frequently used as one of the bases for comparing businesses in our industry, although our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Adjusted EBITDA and EBITDA do not purport to represent operating income or cash flow from operating activities, as those terms are defined under g enerally accepted accounting principles, and should not be considered as alternatives to those measurements as an indicator of our performance. A reconciliation of net loss to EBITDA and Adjusted EBITDA has been provided in this release.
