RADIO ONE, INC. REPORTS THIRD QUARTER RESULTS

Washington, DC: - Radio One, Inc. (NASDAQ: ROIAK and ROIA) today reported its results for the quarter ended September 30, 2015. Net revenue was approximately \$115.9 million, an increase of 3.3% from the same period in 2014, reflecting greater advertising demand and an increase in affiliate revenue at our cable television segment. Station operating income¹ was approximately \$42.2 million, an increase of 9.2% from the same period in 2014. The Company reported operating income of approximately \$7.1 million for the three months ended September 30, 2015, compared to operating income of \$19.6 million for the same period in 2014. Net loss was approximately \$18.1 million or \$0.38 per share compared to \$13.2 million or \$0.28 per share, for the same period in 2014.

Alfred C. Liggins, III, Radio One's CEO and President stated, "Continuing strong performances by TV One and Reach Media more than offset the revenue declines from our Radio business. Radio continues to be a challenging business, with the markets in which we operate down 2.2% for the quarter, compared to our –6.6%. We are seeing some signs of stabilization in our Washington DC and Houston clusters, as well as strong performances from Dallas, Philadelphia and St Louis. During the quarter we experienced double-digit ratings growth in 11 of our 15 markets, and our four largest markets showed ratings growth of 15% on average from July to September. This positive ratings momentum should lead to improved monetization in 2016. Fourth quarter core radio advertising revenues, excluding political advertising, are currently pacing (–8.3%) YTY. We remain focused on correcting our underperforming radio clusters, while delivering increased cash-flow through overall cost containment, and revenue growth in the cable television business. I am excited that David Kantor has accepted the role as CEO of our radio platform, including our local stations, network and syndication business. Bringing together all of our radio assets under one leadership structure will enhance our ability to compete and transform our business for the future."

| Net Revenue (as reported) | \$ | 115,893 | \$ 112,171 | \$ 3,722 | 3.3% |

Net revenue increased to approximately \$115.9 million for the quarter ended September 30, 2015, from approximately \$112.2 million for the same period in 2014, an increase of 3.3%, resulting primarily from greater advertising demand and an increase in affiliate revenue at our cable television segment. Net revenues from our radio broadcasting segment decreased 6.6% for the quarter ended September 30, 2015, from the same period in 2014. We experienced net revenue growth in certain markets (most significantly in our Cleveland, Dallas, Philadelphia, and St. Louis markets); however, this growth was offset by declines in other markets (with our Atlanta, Baltimore, Detroit, Columbus, Houston, Indianapolis, and Washington D.C. markets experiencing the most significant declines). Reach Media's net revenues decreased slightly by \$132,000 or 1.0% in the third quarter 2015, compared to the same period in 2014. We recognized approximately \$47.6 million of revenue from our cable television segment during the three months ended September 30, 2015, compared to approximately \$39.5 million for the same period in 2014, the increase due primarily from greater advertising demand and an increase in affiliate sales. Finally, net revenues for our internet business decreased 5.5% for the three months ended September 30, 2015, compared to the same period in 2014 due to a decline in alliance revenue.

Operating expenses, excluding depreciation and amortization, stock-based compensation and impairment of long-lived assets, increased to approximately \$85.0 million for the quarter ended September 30, 2015, up 1.9% from the approximately \$83.4 million incurred for the comparable quarter in 2014.

Depreciation and amortization expense decreased to approximately \$8.3 million compared to approximately \$9.2 million for the quarters ended September 30, 2015 and 2014, respectively, a decrease of 9.8%. The decrease was due to the completion of useful lives for certain assets.

During the quarter ended September 30, 2015, the Company identified a triggering event to perform a goodwill interim impairment analysis on the Interactive One reporting unit. Based on preliminary calculations, the Company recorded an estimated goodwill impairment charge related to Interactive One of approximately \$14.5 million during the quarter ended September 30, 2015. The Company expects to finalize the step two impairment analysis and record any adjustments to the preliminary amount during the fourth quarter of 2015.

Interest expense increased to approximately \$20.4 million for the quarter ended September 30, 2015, compared to approximately \$19.4 million for the same period in 2014. On April 17, 2015, the Company's 2011 Credit Agreement, as amended, and TV One notes were paid off, with balances of \$367.6 million and \$119.0 million, respectively. The payoffs were achieved by the Company entering into its new \$350.0 million 2015 Credit Facility, issuing the 2022 Notes in an aggregate principal amount of \$350.0 million and the Comcast Note in the aggregate principal amount of approximately \$11.9 million. The Company made cash interest payments of approximately \$23.8 million on all outstanding instruments for the quarter ended September 30, 2015, compared to cash interest payments of approximately \$26.3 million on all outstanding instruments for the quarter ended September 30, 2014.

PAGE 6 - RADIO ONE, INC. REPORTS THIRD QUARTER RESULTS

The provision for income taxes for the quarter ended September 30, 2015, was approximately \$4.4 million compared to approximately \$9.0 million for the comparable period in 2014, a decrease of approximately \$4.6 million. The decrease was primarily attributable to the reduction in tax amortization from previously acquired indefinite-lived intangible assets and due to provision to return adjustments from the 2014 income tax returns. The Company paid \$3,000 and \$117,000 in taxes for the quarters ended September 30, 2015 and 2014, respectively.

The decrease in noncontrolling interests in income of subsidiaries is due primarily to a change in ownership percentage of TV One.

Other pertinent financial information includes capital expenditures of approximately \$1.5 million and \$1.3 million for the quarters ended September 30, 2015 and 2014, respectively. The Company received dividends from TV One in the amount of approximately \$0 and \$8.9 million for the quarter ended September 30, 2015 and 2014, respectively. The Company received dividends from Reach Media in the amount of approximately \$4.0 million for the quarter ended September 30, 2015 and did not receive a dividend for the quarter ended September 30, 2014. As of September 30, 2015, the Company had total debt (net of cash balances, original issue discount and issuance costs) of approximately \$964.8 million. During the nine months ended September 30, 2015, the Company repurchased 345,293 shares of Class D common stock, granted to certain employees, in the amount of approximately \$1.4 million. The Company as part of its 2009 stock plan, is authorized to purchase shares of Class D common stock to satisfy employee's tax obligations in connection with the vesting of share grants under the plan. There were no stock repurchases made during the three month period ended September 30, 2015, or during the three and nine month periods ended September 30, 2014.

Supplemental Financial Information:

For comparative purposes, the following more detailed, unaudited statements of operations for the three and nine months ended September 30, 2015 and 2014 are included.

Notes:

- "Station operating income" consists of net loss before depreciation and amortization, corporate expenses, stock-based compensation, equity in income of affiliated company, income taxes, noncontrolling interest in income (loss) of subsidiaries, interest expense, impairment of long-lived assets, other (income) expense, loss (gain) on retirement of debt, (income) loss from discontinued operations, net of tax, interest income and gain on purchase of affiliated company. Station operating income is not a measure of financial performance under generally accepted accounting principles. Nevertheless station operating income is a significant basis used by our management to measure the operating performance of our stations within the various markets because station operating income provides helpful information about our results of operations apart from expenses associated with our fixed assets and long-lived intangible assets, income taxes, investments, debt financings and retirements, overhead, stock-based compensation, impairment charges, and asset sales. Our measure of station operating income may not be comparable to similarly titled measures of other companies as our definition includes the results of all four segments (Radio Broadcasting, Reach Media, Internet and Cable Television). Station operating income does not purport to represent operating income or cash flow from operating activities, as those terms are defined under generally accepted accounting principles, and should not be considered as an alternative to those measurements as an indicator of our performance. A reconciliation of net income (loss) to station operating income has been provided in this release.
- 2 For the three months ended September 30, 2015 and 2014, Radio One had 48,220,262 and 47,601,371 shares of common stock outstanding on a weighted average basis (basic), respectively. For the nine months ended September 30, 2015 and 2014, Radio One had 47,963,763 and 47,502,733 shares of common stock outstanding on a weighted average basis (basic), respectively.
- For the three months ended September 30, 2015 and 2014, Radio One had 48,220,262 and 47,601,371 shares of common stock outstanding on a weighted average basis (fully diluted), for outstanding stock options, respectively. For the nine months ended September 30, 2015 and 2014, Radio One had 47,963,763 and 47,502,733 shares of common stock outstanding on a weighted average basis (fully diluted), for outstanding stock options, respectively.
- "Adjusted EBITDA" consists of net loss plus (1) depreciation, amortization, income taxes, interest expense, noncontrolling interest in income of subsidiaries, impairment of long-lived assets, stock-based compensation, loss on retirement of debt, Employment Agreement and incentive plan award expenses, loss from discontinued operations, net of tax, less (2) equity in income of affiliated company, other income, interest income, gain on retirement of debt and gain on purchase of affiliated company. Net income before interest income, interest expense, income taxes, depreciation and amortization is commonly referred to in our business as "EBITDA." Adjusted EBITDA and EBITDA are not measures of financial performance under generally accepted accounting principles. However, we believe Adjusted EBITDA is often a useful measure of a company's operating performance and is a significant basis used by our management to measure the operating performance of our business because Adjusted EBITDA excludes charges for depreciation, amortization and interest expense that have resulted from our acquisitions and debt financing, our taxes, impairment charges, as well as our equity in (income) loss of our affiliated company, gain on retirements of debt, and any discontinued operations. Accordingly, we believe that Adjusted EBITDA provides useful information about the operating performance of our business, apart from the expenses associated with our fixed assets and long-lived intangible assets, capital structure or the results of our affiliated company. Adjusted EBITDA is frequently used as one of the bases for comparing businesses in our industry, although our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies as our definition includes the results of all four segments (Radio Broadcasting, Reach Media, Internet and Cable Television). Adjusted EBITDA and EBITDA do not purport to represent operating income or cash flow from operating activities, as those terms are defined under generally accepted accounting principles, and should not be considered as alternatives to those measurements as an indicator of our performance. A reconciliation of net income (loss) to EBITDA and Adjusted EBITDA has been provided in this release.
